Fire-rated door

YDS001

Recommended Configurations	Door: / Door Frame: /	Frame: YFXD334 Lock: PWWRF078 Hinge: PWW00058

FIRST-RATE FLAME RETARDANT

Multiple fire-resistant design;Long standby time

Fire resistance and high integrity
Thermal insulation ≥5h;The escape door can effectively prolong the rescue time by more than or equal to 1.5 hours.

First-rate anti-fire wooden door can often be burnt for up to 1.5 hours.

Through hundreds or thousands of combined tests, it is determined that the "black technology" composite LVL innovatively manufactured fire-resistant keel in the flame-retardant industry can withstand high temperature of 1200°C for up to 1.5 hours.

First-rate anti-fire wooden door certification

After four years of research and development, more than 1,000 repeated tests, it has obtained the national first-rate anti-fire wooden door certification.

Inorganic minerals are resistant to burning and not deformed

Inorganic mineral materials are combined with cutting-edge technology, so that the materials contain wood and minerals, which are resistant to burning and not deformed.

Swell Retardant Strip can expand up to 30 times

The flame retardant gap is infinitely close to 0, which is more direct and effective to block smoke and prevent the spread of fire.

SECURITY DOORS

Multiple anti-pry design, all aspects of security upgrade

The industry's first indoor safety door, better airtight, more secure, - - more solid and reliable.

1 361° All-round Protection

From entering the home to the interior, it creates a 361° three-dimensional security guard for home life, ensuring that the door has a good thermal insulation and sound insulation effect.

2 Better sealing than ordinary bedroom doors

Equipped with a hook-type latch, the locking is more secure, preventing theft tools from intervening through the gap and unlocking to ensure that the closing door has great thermal insulation and sound insulation.

3 Up to 6 keyholes for extra security

When using dangerous instruments such as electric drills to attack the lock, the security door can provide enough first aid time, making it safer and more secure.

4 There is a safety lock cylinder at home, and the family can feel at ease.

Su cient length to prevent the door leaf from being bent and deformed, and the panel is galvanized to prevent rust.

Smart Home Solutions

OPPEIN is Huawei'sonly customized home IOT strategic partner so far. In August 2019, OPPEIN o cially joined forces with Huawei to help smart homes. The two parties will combine OPPEIN's strong channel system and Huawei's strong technical strength. We are committed to the construction of smart home products and solutions, and bring consumers a one-stop smart life solution with a higher-end and better experience.

Separate Lock Grate G/A/B

100% Italian origin, worldwide patent

AGB
Open, Close, Live

When the door is open, the dead bolt shrinks into the lock body, and there is no protruding place on the surface of the lock body, so as to avoid rubbing the skin and clothing.

Completely sealed lock body, effectively preventing the entry of wood chips or dust, maintaining long-term silence and smoothness of the bolt.

One-Part coupling mechanism, innovative self-lubricating material provides smooth and quiet mechanical transmission while ensuring the stability of the door lock in extreme climatic environments (humidity, dust, chemical agents, etc.).

The world's first single-bolt structure, to ensure that the face plate and strike plate could be used up to 200,000 times.

Built-in permanent strong magnet, to ensure that the face plate and strike plate could be used up to 200,000 times.

EN 12209 EN 1634

Passed EN 12209 performance test and 30-minute fire resistance test by EU authority, building a safe door for you.

Face plate adopts slot structure, easier to install

The face plate and strike plate combine with four adjustable positions.

- The face plate and strike plate combine with four adjustable positions.
- Meet various door and frame sealing strip gap sizes.
- Avoiding the problem of door closing wobbling or too tight due to door manufacturing and installation errors.

Remarks:
- Locks grade G uses AGB5096 lock body (single lever handle), and grade A/B uses AGB5085 lock body (separate lock).
- Handle and lock panel color will not correspond to the unity of the existence of a variety of color handle corresponding to the same color lock body situation.

MADE IN ITALY

Separate Lock G1

- Worldwide patented product, series won several design awards in Europe.
- No guard ring to reduce the visual impact of the door lock, through the knob to realize the lock
- Innovative structure for quick installation, to ensure the level of the best results.
- In case of emergencies, the outside of the room side of the one groove quickly unlocked.

PWWRF059D(L/R) Brushed Brass

PWWRF075D(L/R) Cashmere Gray

Separate Lock G2

- Interchangeable finish patch design, can change the stickers according to the door finish
- Extremely simple appearance design, keyhole-free split ring design
- Extremely comfortable handle grip, magnetic elastic stickers structure is more reliable
- Built-in emergency unlocking slot, can be unlocked by built-in crescent moon Part emergency unlocking

★ PWWRF140D(L/R) Coffee Brass

PWWRF086D(L/R) Brushed Brass

PWWRF087D(L/R) Star Gray

PWWRF088D(L/R) Matte Black

Separate Lock G3

- Support fingerprint unlocking, APP Bluetooth unlocking and emergency key unlocking
- Built-in 550 mAh lithium battery, able to be used continuously for more than half a year
- Can be connected to Gra ti Intelligent System, built-in type-C emergency charging port
- The total capacity of fingerprints is 20, and the first two fingerprints are the administrator's fingerprints by default

Door Lock Handle Sticker

Magnetic mute, quiet and comfortable

More than 200,000 times of lock closure

Strong magnetic tongue mute expansion and contraction design

Hidden latch does not leak, to prevent scratching clothes

Safety latch protection design, close the door could be anti-locking

Patented structure design, between lock core and handle without gap

Adjustable face plate design, reduce the gap between the door room

Buckle plate without folding edge leakage more simple and beautiful

Lock body dust cover design, to avoid the entry of wood

Fully automated assembly, quality is guaranteed

Notes:

- C lock handle and lock body color will not correspond to the unity of the lock body color only steel brushed color.
- C1/C2/3 locks are suitable for 5572 lock body, C4/C5 locks are suitable for 5572B lock body.
