SINK

Wherepots, bowls, ladles, and basins clatter,
Ingredients collide in a lively symphony,
Splashing water in exuberant display,
Only then can true praise for deliciousness emanate from the heart,
Sink, Interpreting a life of purity.

PS932C

Product Specifications

Main material: SUS304 Product Size (H*W*D mm): 860*470*215 Surface treatment: PVD + Nano Hole size above counter basin: 840 * 450 *R10 Hole size below counter basin: 838 * 445 *R19 Package configuration: ST1505+X047C+DS615+DS614+DS606+CB604+SF03

Functional Selling Points

- 1.Paired with button style FeiYu Series faucet
- 2.Handmade welding molding, large single sink design, good effect appearance
- 3.Double layered step structure, can be paired with multifunctional accessories
- 4.Embedded cup washer, convenient to use, elegant and beautiful;
- 5.Nano surface treatment, anti fouling and anti rust;
- 6.Anti condensation coating, effectively reducing moisture and protecting cabinets;
- 7.Equipped with a rear drainage system, the cabinet can utilize more space.

PS930C

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 760*470*200
Surface treatment: PVD + Nano
Hole size above counter basin: 740 * 450 *R15
Hole size below counter basin: 720 * 445 *R23
Package configuration: ST1504+X047-1+DS609+DS612+DS606+CB604+SF03

Functional Selling Points

- 1.Can be paired with FeiYu Series faucet;
- 2.The basin and gallbladder are integrated by stretching and forming, welded with thick panels for long-lasting durability;
- 3.High and low step structure, can be paired with multifunctional accessories;
- 4.Nano surface treatment, anti fouling and anti rust;
- 5.Anti condensation coating, effectively reducing moisture and protecting cabinets;
- 6.Equipped with a rear drainage system, the cabinet can utilize more space.

PS931C

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 820*470*205
Surface treatment: PVD + Nano
Hole size above counter basin: 800*450*R10
Hole size below counter basin: 770*437*R10
Package configuration: ST1504+X047-1+DS609+DS612+DS606+CB604+SF03

Functional Selling Points

- 1.Can be paired with FeiYu Series faucet;
- 2.Handmade welding molding, large single sink design, good effect appearance
- 3.Double layered step structure, can be paired with multifunctional accessories
- 4.Nano surface treatment, anti fouling and anti rust;
- 5.Anti condensation coating, effectively reducing moisture and protecting cabinets;
- 6.Equipped with a rear drainage system, the cabinet can utilize more space.

Functional Single Series

PS918C

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 760*440*200
Surface treatment: PVD + Nano
Hole size above counter basin: 740*440*R10
Hole size below counter basin: 714*390*R10
Package configuration: ST1506+X050+SF03+DS613+CB606

Functional Selling Points

1. Handmade welding molding, large single sink design, good effect appearance;
2. Step structure, can be paired with multifunctional accessories;
3. Anti condensation coating, effectively reducing moisture and protecting cabinets;
4. Nano surface treatment, anti fouling and anti rust;
5. Equipped with a super large caliber drain, it provides faster drainage.

Functional Single Series

The color of the product images may differ from the actual items, please refer to the physical products.
Image configurations are for reference only, please consult the configuration table for actual details.

PS617C-1

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 820*470*200
Surface treatment: Nano
Hole size above counter basin: 800*450*R15
Hole size below counter basin: 784*434*R20
Package configuration: ST1106+X505+DS607+DS608+SF03+CB605

Functional Selling Points

1. SUS304 integrated stretching, 3D large single slot saves space, classic and practical;
2. Nano coating surface, anti fouling and anti rust;
3. Super quiet effect, eliminating underwater noise without a trace;
4. Equipped with a super large caliber drain for faster drainage;
5. It can be paired with a variety of sink accessories, with rich functions.

PS617C

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 820*470*200
Surface treatment: Nano
Hole size above counter basin: 800*450*R15
Hole size below counter basin: 784*434*R20
Package configuration: ST1306+X047+DS607+DS608+SF03+CB605

Functional Selling Points

1. SUS304 integrated stretching, 3D large single slot saves space, classic and practical;
2. Nano coating surface, anti fouling and anti rust;
3. Super quiet effect, eliminating underwater noise without a trace;
4. Equipped with a rear drainage system, the cabinet can utilize a larger space;
5. It can be paired with a variety of sink accessories, with rich functions.

Quartz Series

The color of the product images may differ from the actual items, please refer to the physical products.
Image configurations are for reference only, please consult the configuration table for actual details.

**GR907**

Product Specifications

Main material: Quartz Product Size (H*W*D mm): 762*436*218 Surface treatment: / Hole size above counter basin: / Hole size below counter basin: / Package configuration: ST1506+X047C+DS613+CB606+SF03

Functional Selling Points

1. Seamless splicing tabletop connection process;
2. Single step structure, can be paired with functional accessories such as cutting boards and sliding pots;
3. Made of top-quality quartz material, with a dense structure and soft texture;
4. Healthy and environmentally friendly without radiation, injecting new vitality into the kitchen;
5. Excellent performance, with strong temperature resistance, high temperature resistance, corrosion resistance, and impact resistance;
6. Equipped with a rear drainage system, the cabinet can utilize more space.

**GR906J-1**

Product Specifications

Main material: Quartz
Product Size (H*W*D mm): 780*425*237
Surface treatment: /
Hole size above counter basin: /
Hole size below counter basin: /
Package configuration: ST1413+X047C+SF03

Functional Selling Points

1. Seamless splicing tabletop connection process;
2. Made of top-notch quartz material, with a dense structure and soft texture;
3. Healthy and environmentally friendly without radiation, injecting new vitality into the kitchen;
4. Excellent performance, with strong temperature resistance, high temperature resistance, corrosion resistance, and impact resistance;
5. Equipped with a rear drainage system, the cabinet can utilize more space.

**GR973**

Product Specifications

Main material: Quartz
Product Size (H*W*D mm): 760*470*208
Surface treatment: /
Hole size above counter basin: 740*450*R10
Hole size below counter basin: 708*435*R18
Package configuration: ST1111+X047+DS606+CB604+SF03

Functional Selling Points

1. Made of top-grade quartz material, with a dense structure and soft texture;
2. Healthy and environmentally friendly without radiation, with diverse colors, injecting new vitality into the kitchen;
3. Excellent performance, with strong temperature resistance, high temperature resistance, corrosion resistance, and impact resistance;
4. Equipped with a rear drainage system, the cabinet can utilize more space;
5. The high and low step structure can be paired with functional accessories such as cutting boards and sliding basins.

Quartz Series

PS311A

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): Ø440*190
Surface treatment: Wire drawing
Hole size above counter basin: Ø410
Hole size below counter basin: Ø404
Package configuration: ST1001A+X037A+X060

Functional Selling Points

1. One-piece stretching, pragmatism;
2. Mercerization treatment, providing delicate and noble appearance;
3. Simple design, showing personality and fashion

PS631

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 620*427*205
Surface treatment: Wire drawing
Hole size above counter basin: /
Hole size below counter basin: 570*377*R15
Package configuration: ST1306+X037A

Functional Selling Points

1. One piece stretching with SUS304 and classic single sink design;
2. Small rounded corners providing more space, high-end appearance, not easy to hide dirt, easy to clean;
3. Mercerization treatment, providing delicate and noble appearance;
4. Only support under-the-counter installation;

PS633C

Product Specifications

Product Specifications
Main material: SUS304
Product Size (H*W*D mm): 760*470*200
Surface treatment: Nano
Hole size above counter basin: 740*450*R15
Hole size below counter basin: 720*445*R23
Package configuration: ST1411+X047+DS612+DS605+CB604+SF03

Functional Selling Points

1. The basin and gallbladder are integrated by stretching and forming, welded with thick panels for long-lasting durability;
2. High and low step structure, can be paired with multifunctional accessories;
3. Nano surface treatment, anti fouling and anti rust;
4. Anti condensation coating, effectively reducing moisture and protecting cabinets;
5. Equipped with a rear drainage system, the cabinet can utilize more space

PS6303C

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 820*470*210
Surface treatment: Nano
Hole size above counter basin: 800*450*R15
Hole size below counter basin: 760*445*R20
Package configuration: ST1411+X048C+DS605+CB604+SF03

Functional Selling Points

1. The basin and gallbladder are integrated by stretching and forming, welded with thick panels for long-lasting durability;
2. The basin and gallbladder step structure can be paired with accessories such as drainage baskets and cutting boards;
3. Nano surface treatment, anti fouling and anti rust;
4. Anti condensation coating, effectively reducing moisture and protecting cabinets;
5. Equipped with a rear drainage system, the cabinet can utilize more space

PS615C

Product Specifications

Product Specifications
Main material: SUS304
Product Size (H*W*D mm): 760*470*200
Surface treatment: Nano
Hole size above counter basin: 740*450*R20
Hole size below counter basin: 727*437*R15
Package configuration: ST1105+X037A+SF03

Functional Selling Points

1. SUS304 integrated stretching, with good load-bearing performance;
2. Nano coating surface, anti fouling and anti rust;
3. Exquisite small slanted edge design, stronger three-dimensional sense;
4. Anti condensation coating, effectively reducing moisture and protecting cabinets;
5. Practical single slot design.

PS6221C-2

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 760*470*200
Surface treatment: Nano
Hole size above counter basin: 745*455*R20
Hole size below counter basin: 720*430*R30
Package configuration: ST1105+X039A+SF03

Functional Selling Points

1. SUS304 integrated stretching, with good load-bearing performance;
2. Nano surface treatment, anti fouling and anti rust;
3. Anti condensation coating, effectively reducing moisture and protecting cabinets;
4. Classic size slot design, reasonable washing partition, practical

PS615A-1

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 760*470*200
Surface treatment: Wire drawing
Hole size above counter basin: 740*450*R20
Hole size below counter basin: 727*437*R15
Package configuration: ST1110+X047+DP17A

Functional Selling Points

1. SUS304 integrated stretching, mercerized treatment, delicate and noble;
2. Exquisite small slanted edge design, stronger three-dimensional sense;
3. Anti condensation coating effectively reduces moisture and protects cabinets
4. Equipped with a rear drainage system, the cabinet can utilize more space.

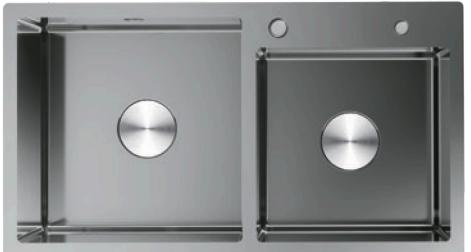

PS612C

Product Specifications

Main material: SUS304 Product Size (H*W*D mm): 760*470*210 Surface treatment: Nano
Hole size above counter basin: 740*450*R20
Hole size below counter basin: 720*430*R20
Package configuration: ST1306-1+X047+DS601

Functional Selling Points

1. SUS304 integrated stretching, simple and large single slot classic and practical;
2. Nano coating surface, anti fouling and anti rust;
3. Super quiet effect, eliminating underwater noise without a trace;
4. Equipped with a rear drainage system, the cabinet can utilize more space.

PS9110C

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 820*450*200
Surface treatment: Nano
Hole size above counter basin: /
Hole size below counter basin: 795*425*R23
Package configuration: ST1111*X039A+SF03

Functional Selling Points

1. Hand welded and formed, with a square and atmospheric appearance;
2. Classic size slot design, practical and beautiful;
3. Only supports offline installation;
4. Nano surface treatment, anti fouling and anti rust.

PS9601C

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 720*440*200
Surface treatment: Nano
Hole size above counter basin: /
Hole size below counter basin: 670*400*R10
Package configuration: ST1111*X037A+SF03

Functional Selling Points

1. Hand welded and formed, with a square and atmospheric appearance;
2. Only supports offline installation;
3. Anti condensation coating, effectively reducing moisture and protecting cabinets;
4. Nano surface treatment, anti fouling and anti rust;
5. Offset the drain hole to save cabinet space.

PS972XC Dry Kitchen

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 550*320*200
Surface treatment: PVD+Nano
Hole size above counter basin: 530*300*R10
Hole size below counter basin: 520*290*R20
Package configuration: ST1701+X037A+DS611

Functional Selling Points

1. Hand welded and formed, SUS304 material;
2. Nano surface treatment, anti fouling and anti rust;
3. Anti condensation coating, effectively reducing moisture and protecting cabinets;
4. Matched sideboards and Western kitchens;
5. Paired with a cup washer.

GR971XC Dry Kitchen

Product Specifications

Main material: Quartz Product Size (H*W*D mm): 450*300*210 Surface treatment: / Hole size above counter basin: 430*280*R10 Hole size below counter basin: 400*250*R10 Package configuration: ST1308+X037C

Functional Selling Points

1. Made of top-grade quartz material, with a dense structure and soft texture;
2. Healthy and environmentally friendly without radiation, injecting new vitality into the kitchen;
3. Excellent performance, with strong resistance to temperature difference, high temperature, corrosion, and impact;

PS915C

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 760*470*200
Surface treatment: Nano
Hole size above counter basin: 730*440*R10
Hole size below counter basin: 730*440*R20
Package configuration: ST1506+X047+DS901+SF03

Functional Selling Points

1. Handmade welding molding, large single groove design, good effect appearance;
2. Gun gray PVD treatment, high-end texture;
3. High strength nano coating;
4. 3mm thick panel, sturdy and not deformed;
5. Equipped with a rear drainage system, the cabinet can utilize more space;
6. Offset the drain hole to save cabinet space.

PS9221C

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 860*470*200
Surface treatment: Nano
Hole size above counter basin: 830*440*R10
Hole size below counter basin: 830*440*R20
Package configuration: ST1506+X048+DS901+SF03

Functional Selling Points

1. Handmade welding molding, large single groove design, good effect appearance;
2. Gun gray PVD treatment, high-end texture;
3. High strength nano coating;
4. 3mm thick panel, sturdy and not deformed;
5. Equipped with a rear drainage system, the cabinet can utilize more space.

Five water outlet modes, indulge in cleaning pleasures

Easily tackle various cleaning challenges,
with a clean and ceremonial washing experience.

Cup Washer

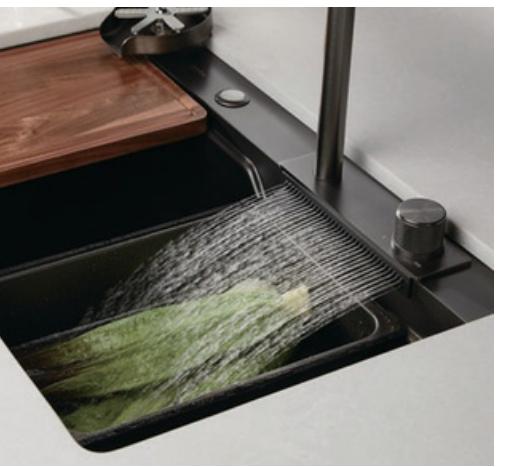

Spray Mode

Stream Mode

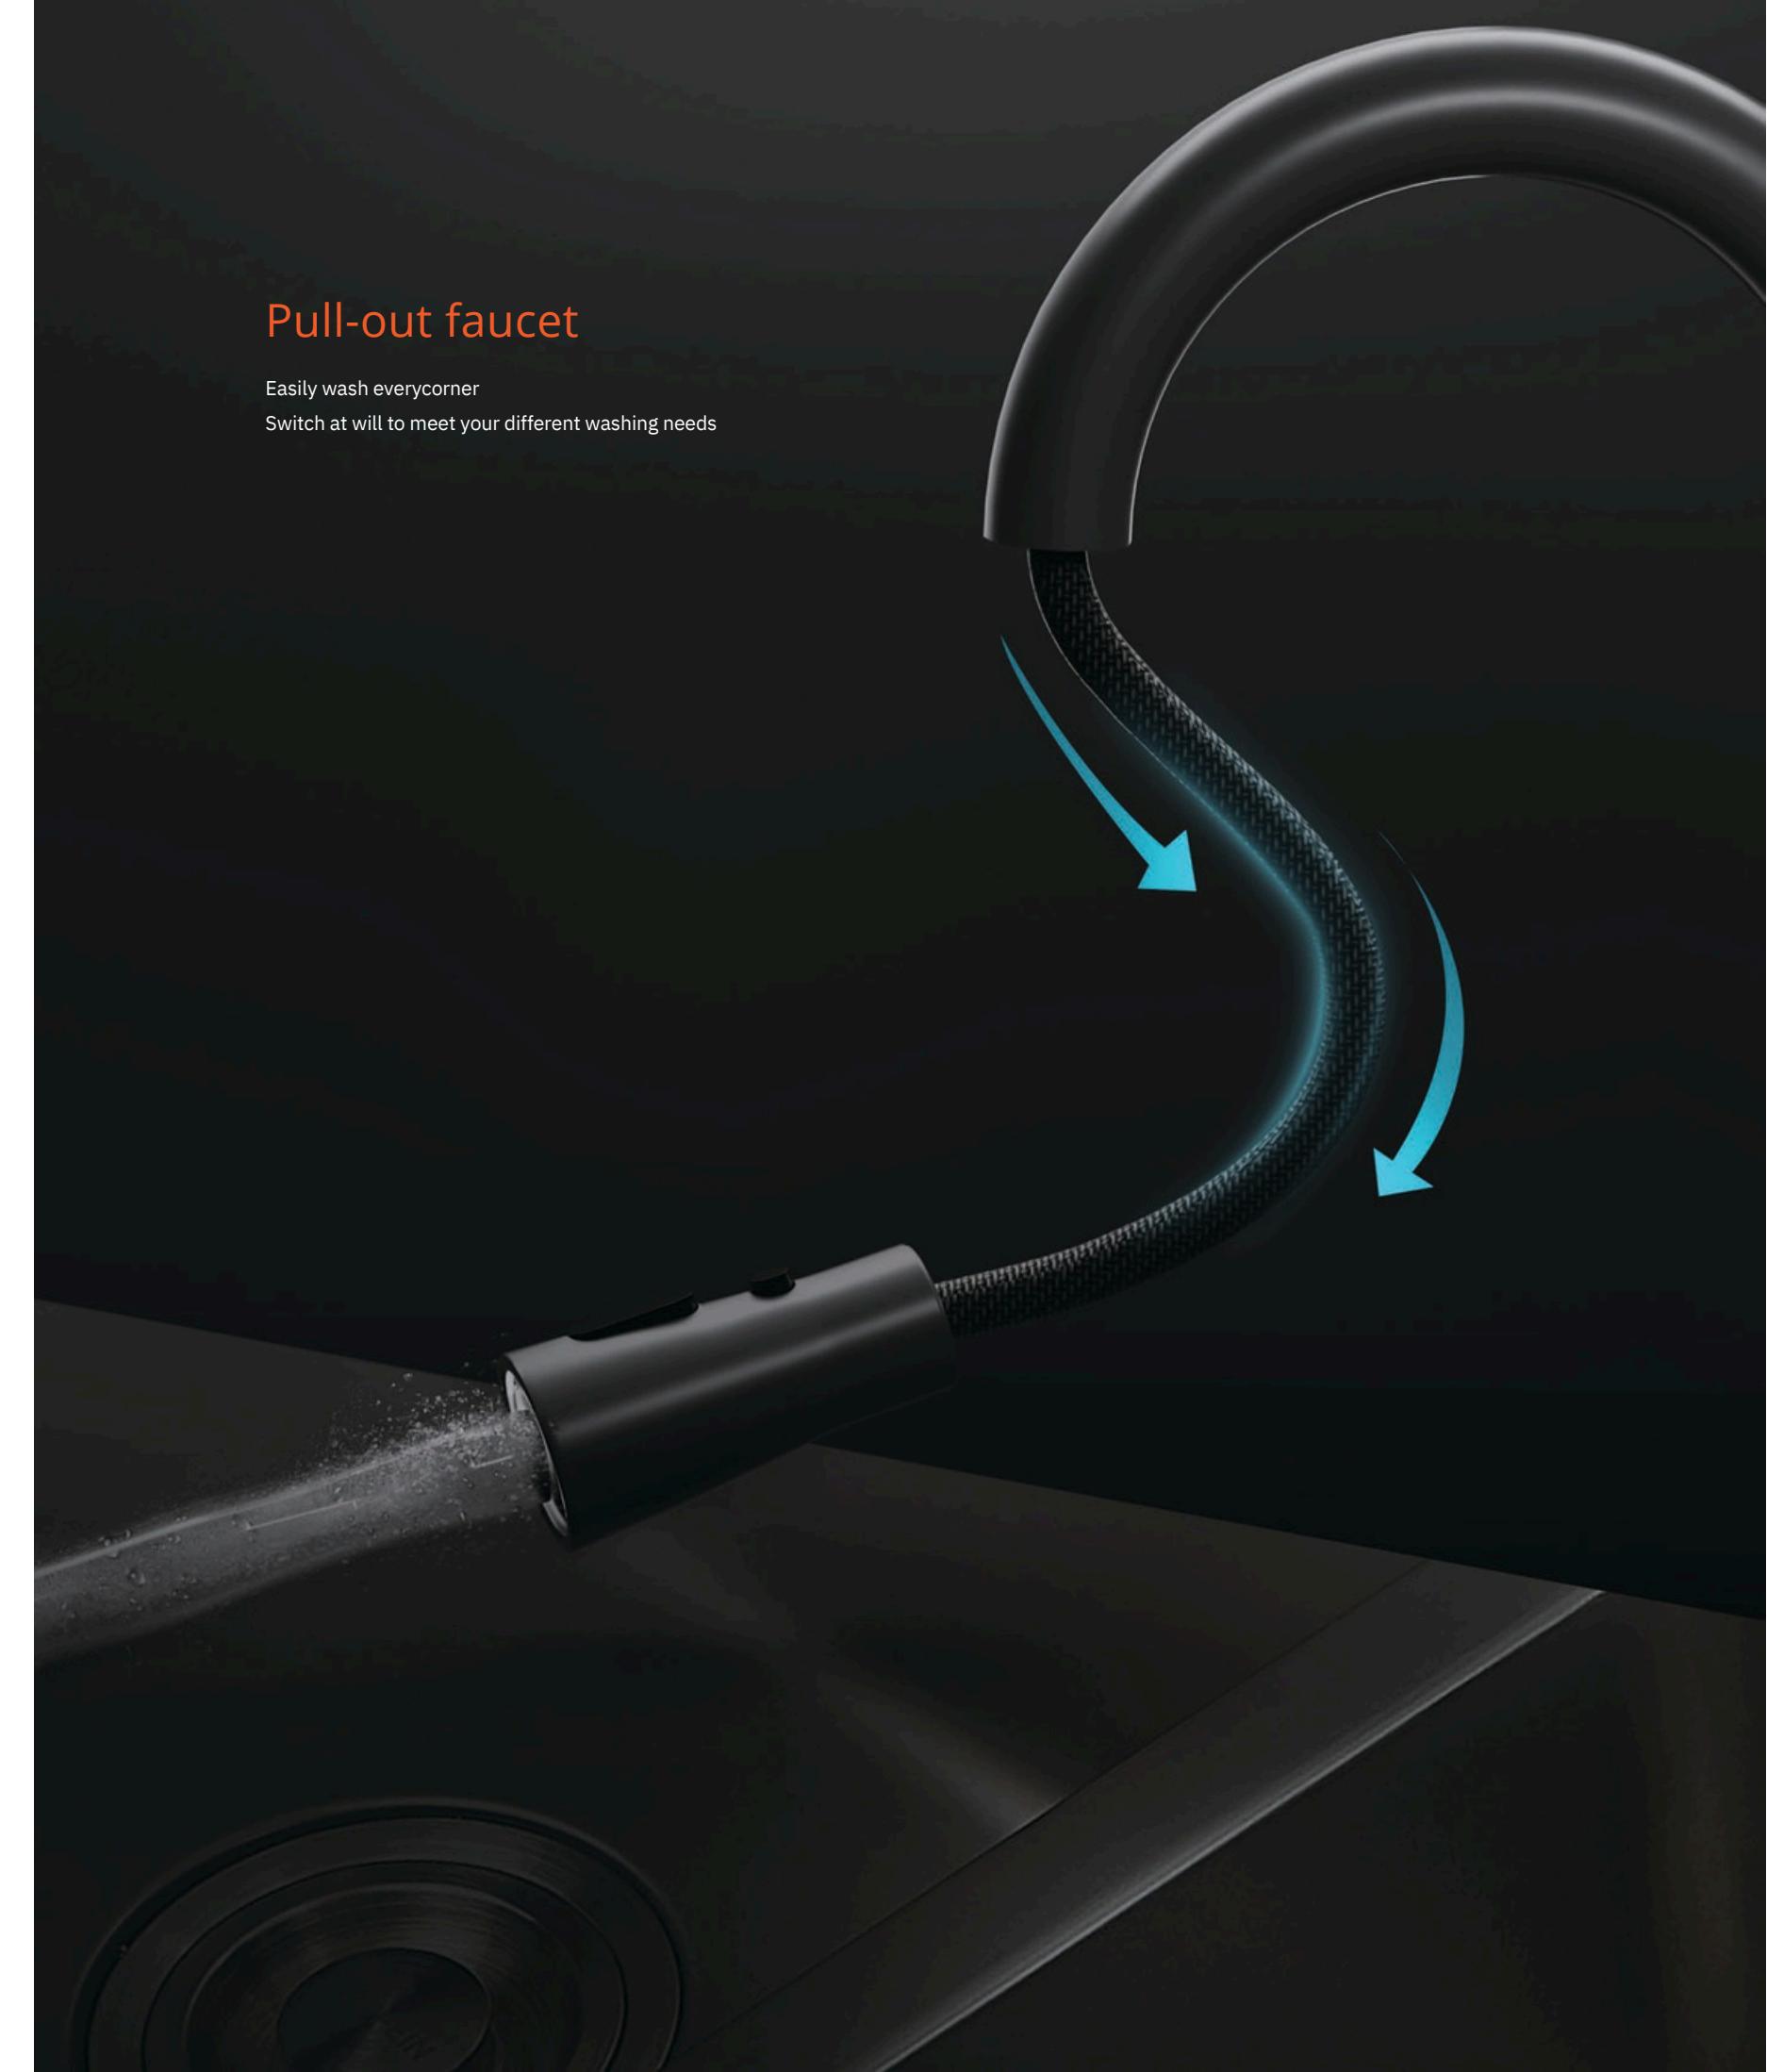

Double Sweep Mode

Waterfall Shower Mode

Pull-out faucet

Easily wash every corner
Switch at will to meet your different washing needs

Faucet ST1001A

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 50*237*381
Surface treatment: Wire drawing

Functional Selling Points

1. SUS304 material manufacturing, environmentally friendly and healthy;
2. Simple and practical appearance;
3. Standard configuration of well-known brand valve core

Faucet ST1105

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 57*261*430
Surface treatment: Wire drawing

Functional Selling Points

1. SUS304 material manufacturing, environmentally friendly and healthy;
2. Equipped with internationally renowned brand valve cores as standard;
3. Pull the faucet for more convenient cleaning;
4. Dual mode water outlet, Matched various usage scenarios;
5. Stainless steel brushed surface, timeless and timeless

Faucet ST1106

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 52*257*470
Surface treatment: Wire drawing

Functional Selling Points

1. SUS304 material manufacturing, environmentally friendly and healthy;
2. Equipped with internationally renowned brand valve cores as standard;
3. Pull the faucet for more convenient cleaning;
4. Dual mode water outlet, Matched various usage scenarios;
5. Stainless steel brushed surface, timeless and timeless

Faucet ST1111

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 52*273*403
Surface treatment: Grey

Functional Selling Points

1. SUS304 material manufacturing, environmentally friendly and healthy;
2. Equipped with internationally renowned brand valve cores as standard;
3. Pull the faucet for more convenient cleaning;
4. Dual mode water outlet, Matched various usage scenarios;
5. Good Effect

Faucet ST1412

Product Specifications

Main material: Low lead copper
Product Size (H*W*D mm): 55*233*412
Surface treatment: Grey

Functional Selling Points

1. Low lead copper material manufacturing, environmentally friendly and healthy;
2. Equipped with internationally renowned brand valve cores as standard;
3. Split type pull-out faucet, convenient to use.

Faucet ST1413

Product Specifications

Main material: Low lead copper+Zinc alloy
Product Size (H*W*D mm): 55*279*445
Surface treatment: Dark

Functional Selling Points

1. Low lead copper water permeable parts, environmentally friendly and healthy;
2. Dual mode water outlet, Matched more applicable scenarios;
3. Equipped with internationally renowned brand valve cores as standard;
4. The faucet can be pulled for more convenient use.

Faucet ST1504

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 240*268*423
Surface treatment: Grey

Functional Selling Points

1. SUS304 material manufacturing, environmentally friendly and healthy;
2. Standard configuration of well-known brand valve cores;
3. High discharge pipe, novel and fashionable;
4. The faucet can be pulled for more convenient use.

Faucet ST1505

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 300*277*429
Surface treatment: Grey

Functional Selling Points

1. SUS304 material manufacturing, environmentally friendly and healthy;
2. Standard configuration of well-known brand valve cores;
3. High discharge pipe, novel and fashionable;
4. The faucet can be pulled for more convenient use.

Faucet ST1306-1

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 50*245*490
Surface treatment: Wire drawing

Functional Selling Points

1. SUS304 material manufacturing, environmentally friendly and healthy;
2. Standard configuration of well-known brand valve cores;
3. Stainless steel wire drawing surface, timeless and timeless;
4. The hose outlet pipe makes cleaning more convenient.

Faucet ST1305-1

Product Specifications

Main material: Low lead copper
Product Size (H*W*D mm): 50*250*477
Surface treatment: Black+Red

Functional Selling Points

1. Low lead copper material manufacturing, environmentally friendly and healthy;
2. Equipped with internationally renowned brand valve cores as standard;
3. High throw appearance, novel and fashionable;
4. The faucet can be pulled for more convenient use.

Faucet ST1306

Product Specifications

Main material: Low lead copper+Zinc alloy
Product Size (H*W*D mm): 54*246*420
Surface treatment: Chromium plating

Functional Selling Points

1. Low lead copper material manufacturing, environmentally friendly and healthy;
2. Equipped with internationally renowned brand valve cores as standard;
3. The hose outlet pipe makes cleaning more convenient.
4. Dual mode water outlet, Matched various usage scenarios;

Faucet ST1411

Product Specifications

Main material: Low lead copper
Product Size (H*W*D mm): 55*248*535
Surface treatment: Grey

Functional Selling Points

1. Low lead copper material manufacturing, environmentally friendly and healthy;
2. The faucet can be pulled and cleaned conveniently;
3. Three mode water outlet, Matched more life scenes;
4. Touch switch water, intelligent and humanized, high-end and fashionable;
5. Equipped with internationally renowned brand valve cores as standard.

Faucet ST1506

Product Specifications

Main material: SUS304
Product Size (H*W*D mm): 52*260*445
Surface treatment: Grey

Functional Selling Points

1. SUS304 material manufacturing, environmentally friendly and healthy;
2. Can pull the faucet, making cleaning more convenient;
3. Dual mode water outlet, Matched various usage scenarios.

Dry Kitchen ST1308

Product Specifications

Main material: Low lead copper+Zinc alloy
Product Size (H*W*D mm): 51*193*186
Surface treatment: Black

Functional Selling Points

1. Low lead copper material manufacturing, environmentally friendly and healthy;
2. Runway shaped handle appearance, overall minimalist design;
3. Equipped with internationally renowned brand valve cores as standard, with an ultra long service life of valve cores;
4. Matte black surface, high-end and fashionable

Dry Kitchen ST1701

Product Specifications

Main material: Low lead copper
Product Size (H*W*D mm): 50*185*175
Surface treatment: Matt Black

Functional Selling Points

1. Low lead copper material manufacturing, environmentally friendly and healthy;
2. Runway shaped handle appearance, overall minimalist design;
3. Equipped with internationally renowned brand valve cores as standard, with an ultra long service life of valve cores;
4. Matte black surface, high-end and fashionable

PULL-OUT BASKET

Gathers slowly, Arrange meticulously,
Accompanying you to feel the warmth and kindness of life,
All within the act of pulling out, transforming a house into a home.

X1 Series

Plate Basket
LW060/070/080/090X1

Product Specifications

Main material: Carbon steel+nano dry ferryl antibacterial
Matched drawer base cabinet W=600/700/800/900mm
Configuration: Water tray+cutlery box+cup holder
Product Size(W*D*H mm): 564/664/764/864*462.5*209
Installation Size(W*D*H mm): 564/664/764/864*≥485*≥235
568/668/768/868*≥485*≥235

Functional Selling Points

1. Nano dry surface treatment, capable of passing the 96H neutral salt spray test, with strong rust prevention ability
2. Bowl basket independent large storage box and exclusive cup holder design, with strong storage capacity and large capacity;
3. Bold wireframe design, nano dry surface coating with antibacterial function
4. Implant decorative cover plate, screw hidden design, simple and beautiful;
5. Standard configuration includes a noon gray independent water tray, with patented side drainage for easy cleaning.

Cutlery Basket
LT060/070/080/090X1

Product Specifications

Main material: Carbon steel+nano dry ferryl antibacterial
Matched drawer base cabinet W=600/700/800/900mm
Configuration: Water tray
Product Size(W*D*H mm): 564/664/764/864*462.5*209
Installation Size(W*D*H mm): 564/664/764/864*≥485*≥235
568/668/768/868*≥485*≥235

Functional Selling Points

1. Nano dry surface treatment, can pass the 96H neutral salt spray test strong rust prevention ability
2. Bold wireframe design, nano dry surface coating with antibacterial function
3. Implanted decorative cover plate, screw hidden design, simple and beautiful
4. Comes standard with a noon gray independent water tray, easy to clean

Functional Basket
LD030/035/040/045A5-1

Product Specifications

Main material: Carbon steel+nano dry ferryl antibacterial
Matched drawer base cabinet W=300/350/400/450mm
Configuration: Half plate water tray+chopstick box
Product Size(W*D*H mm): 264/314/364/414*472*445.6
Installation Size(W*D*H mm): 264/314/364/414*≥485*≥500
268/318/368/418*≥485*≥500

Functional Selling Points

1. Nano dry surface treatment, can pass the 96H neutral salt spray test
2. Partition function storage, with strong capacity for large storage;
3. Bold wireframe design, nano dry surface coating with antibacterial function
4. Standard configuration: Midday gray half plate water tray, easy to clean

X3 Series

Plate Basket
LT060/070/080/090WH-2

Product Specifications

Main material: Stainless steel/electrolysis/sealing oil
Matched base cabinet W=600/700/800/900mm
Configuration: Water tray
Product Size(W*D*H mm): 564/664/764/864*463*168
Installation Size(W*D*H mm): 564/664/764/864*≥485*≥190
568/668/768/868*≥485*≥190

Functional Selling Points

1. Stainless steel basket body, strong rust resistance, environmentally friendly and safe
2. Place cookware with large storage capacity, often installed in the lower space of the cabinet,
3. Standard configuration box, convenient storage for cooking utensils;
4. Standard water tray, drain and store for easy cleaning

Functional Basket
LD030C/LD035C/LD040C/LD045B-2

Product Specifications

Main material: Stainless steel/electrolysis/sealing oil
Matched base cabinet W=300/350/400/450mm
Configuration: Water tray+storage box
Product Size(W*D*H mm): 564/664/764/864*463*168
Installation Size(W*D*H mm): 564/664/764/864*≥485*≥235
568/668/768/868*≥485*≥235

Functional Selling Points

1. Stainless steel basket body, strong rust resistance, environmentally friendly and safe
2. Place items such as bottles, chopsticks, knives, etc., and install pull-out door panels for the entire cabinet
3. Standard water tray, drain and store for easy cleaning

M3 Base Cabinet Series

Net Basket
LW060/070/080/090M3

Product Specifications

Main material: Low carbon steel/powder coating+tempered glass (metal plate)
Matched Drawer base cabinet W=600/700/800/900mm
Configuration: Mouse pattern anti slip pad
Product Size(W*D*H mm): 564/664/764/864*458*120
Installation Size(W*D*H mm): 564/664/764/864*495*190
568/668/768/868*495*190

Functional Selling Points

1. Ultra thin basket body, providing larger storage space than regular pull-out baskets or drawers Large cookware products
2. Basket body with gold bent plate and tempered glass, surface treated with environmentally friendly spray coating, standard with mouse striped anti slip pad, absolutely anti slip, waterproof and more durable;
3. The exterior of the product is simple, beautiful, and generous.

Plate Basket
LT060/070/080/090M3-1

Product Specifications

Main material: Low carbon steel/powder coating+tempered glass (metal plate)
Matched base cabinet W=600/700/800/900mm
Configuration: Mouse pattern anti slip pad+bowl rack set (increased wire frame spacing)+Water collection tray+storage box
Product Size(W*D*H mm): 564/664/764/864*463*168
Installation Size(W*D*H mm): 564/664/764/864*495*235
568/668/768/868*495*235

Functional Selling Points

1. Ultra thin basket body, which can provide larger storage space than ordinary pull-out baskets or drawers, combined classification and storage of partitions, dishes, chopsticks, etc.:
2. Basket body with gold bent plate and tempered glass, surface treated with environmentally friendly coating, standard with mouse pattern Anti slip pad, absolutely anti slip, waterproof and more durable,
3. The exterior of the product is simple, beautiful, and generous.

Functional Basket
LD030/035/040/045M3

Product Specifications

Main material: Low carbon steel/powder coating+tempered glass (metal plate)
Matched base cabinet W=300/350/400/450mm
Configuration: Mouse pattern anti slip pad
Product Size(W*D*H mm): 264/314/364/414*452*461
Installation Size(W*D*H mm): 264/314/364/414*495*500
268/318/368/418*>495*>500

Functional Selling Points

1. Ultra thin basket body, which can provide larger storage space for general pull-out baskets or drawers, module group Classify and store separated items;
2. Basket metal plate+tempered glass, surface treated with environmentally friendly spray coating, standard with mouse pattern Anti slip pad, absolutely anti slip, waterproof and more durable;
3. The product's exterior is simple, beautiful, and generous.

Corner Basket
L Z900RM3 (right) / L Z900LM3 (left)

Product Specifications

Main material: Low carbon steel/powder coating+tempered glass (metal plate)
Matched corner cabinet W=900mm, door W=450mm
Configuration: double-layer+mouse pattern anti slip pad
Product Size(W*D*H mm): (864-968)*(520-560)*530
Installation Size(W*D*H mm): (864-868)*(520-560)*>600

Functional Selling Points

1. M3 Monster Perfectly Solves Corner Cabinet Storage Space and Uses Space Reasonably
2. Basket metal plate+tempered glass, surface treated with environmentally friendly spray coating, standard mouse Striped anti slip pad, absolutely anti slip, waterproof and more durable
3. The exterior of the product is simple, beautiful, and generous.

Linked Basket
LK045/060M3

Product Specifications

Main material: Low carbon steel/powder coating+tempered glass (metal plate)
Matched base cabinet W=450/600mm, hinge open degree $\geq 155^\circ$
Configuration: double-layer+mouse pattern anti slip pad
Product Size(W*D*H mm): 370/520*480*614
Installation Size(W*D*H mm): 414/418*490*632
564/568*>490*>632

Functional Selling Points

1. The ultra-thin basket body can provide larger storage space than regular pull-out baskets, effectively solving the problem of floor cabinets Linkage type basket pulling scheme;
2. Basket metal plate+tempered glass, surface treated with environmentally friendly spray coating, standard with mouse pattern Anti slip pad, absolutely anti slip, waterproof and more durable,
3. The exterior of the product is simple, beautiful, and generous.

M3 Tall Cabinet Series

Linked Basket
LK045/060HM3

Product Specifications

Main material: Low carbon steel/powder coating+tempered glass (metal plate)
Matched Tall cabinet W=450/600mm, hinge open degree $\geq 155^\circ$
Configuration: 5 layer+mouse pattern anti slip pad
Product Size(W*D*H mm): 355/505*487*(1720-2020)
Installation Size(W*D*H mm): 414/418* \geq 490*(1730-2020)
564/568* \geq 490*(1730-2020)

Functional Selling Points

1. The ultra-thin basket body can provide larger storage space than a typical basket, effectively solving the problem of high cabinet linked basket solution
2. Basket metal plate+tempered glass, surface treated with environmentally friendly spray coating, standard mouse striped anti slip pad, absolutely anti slip, waterproof and more durable;
3. The exterior is simple, beautiful, and generous

Linked Basket
LK045/060MM3

Product Specifications

Main material: Low carbon steel/powder coating+tempered glass (metal plate)
Matched Middle Tall cabinet W=450/600mm, hinge open degree $\geq 155^\circ$
Configuration: 4 layer+mouse pattern anti slip pad
Product Size(W*D*H mm): 355/505*487*(1340-1660)
Installation Size(W*D*H mm): 414/418* \geq 490*(1360-1660)
564/568* \geq 490*(1360-1660)

Functional Selling Points

1. The ultra-thin basket body can provide larger storage space than a typical basket, effectively solving the problem of central cabinets chain linked basket solution
2. Basket metal plate+tempered glass, surface treated with environmentally friendly spray coating, standard with mouse pattern Anti slip pad, absolutely anti slip, waterproof and more durable;
3. The exterior of the product is simple, beautiful, and generous.

Cutlery Tray Drawer
LT060/080MM3

Product Specifications

Main material: Low carbon steel/powder coating+tempered glass (metal plate)
Matched Cabinet W=600/800mm
Configuration: cutlery divider+mouse pattern anti slip pad
Product Size(W*D*H mm): 564/764*461*95
Installation Size(W*D*H mm): 564/568* \geq 495* \geq 125
764/768* \geq 495* \geq 125

Functional Selling Points

1. The ultra-thin basket body can provide larger storage space than ordinary pull-out baskets or drawers, and the combination is divided into separate item classification and storage;
2. Basket metal plate+tempered glass, surface treated with environmentally friendly spray coating, standard mouse striped anti slip pad, absolutely anti slip, waterproof and more durable;
3. The exterior of the product is simple, beautiful, and generous.

Pull out Basket
LG030HM3

Product Specifications

Main material: Low carbon steel/powder coating+tempered glass (metal plate)
Matched tall cabinet W=300mm
Configuration: 6 layer+anti slip pad
Product Size(W*D*H mm): 264*510*(1960-2260mm)
Installation Size(W*D*H mm): 264/268* \geq 510*(1960-2260)

Functional Selling Points

1. Cleverly designed structure, pulling out the door panel as a whole; The height of the basket can be freely adjusted and divided reasonably Equipped with adjustable space and 6-story basket design;
2. The product has a metal plate powder coating process on the basket body, and the bottom of the basket is equipped with anti slip pads as standard, providing absolute protection smooth, waterproof and more durable;
3. Top and bottom rail double damping: outstanding track load-bearing capacity and sliding effect, safe and smooth
4. German imported dampers ensure 100000 opening and closing cycles.

M6 Base Cabinet Series

Net Basket
LD060/070/080/090M6

Product Specifications

Main material: Aluminum alloy+Buddha carbon process (metal plate)
Matched Drawer base cabinet W=600/700/800/900mm
Configuration: Standard anti slip pad+storage box+flexible partition set
Product Size(W*D*H mm): 564/664/764/864*470*226
Installation Size(W*D*H mm): 564/664/764/864*495*240
568/668/768/868*495*240

Functional Selling Points

1. Precision machining and assembly of space aluminum enclosure frame, modular combination partition classification and storage design 2. The surface treatment of the product is Buddha carbon technology, with antibacterial function on the surface and anti slip standard on the bottom pad, absolutely anti slip, waterproof and more durable; 3. The product has a strong, exquisite, simple and beautiful appearance.

Plate Basket
LW060/070/080/090M6

Product Specifications

Main material: Aluminum alloy+Buddha carbon process (metal plate)
Matched Drawer base cabinet W=600/700/800/900mm
Configuration: Standard anti slip pad+set of dish rack+module water tray+center pull
Product Size(W*D*H mm): 564/664/764/864*470*226
Installation Size(W*D*H mm): 564/664/764/864*495*240
568/668/768/868*495*240

Functional Selling Points

1. Precision machining and assembly of space aluminum enclosure frame, modular combination partition classification and storage design 2. The surface treatment of the product is Buddha carbon technology, with antibacterial function on the surface and anti slip standard on the bottom pad, absolutely anti slip, waterproof and more durable; 3. The product has a strong, exquisite, simple and beautiful appearance.

Functional Basket
LD030/035/040/045M6

Product Specifications

Main material: Aluminum alloy+Buddha carbon process (metal plate)
Matched base cabinet W=300/350/400/450mm
Configuration: Standard anti slip pad+flexible partition set+center pull
Product Size(W*D*H mm): 264/314/364/414*478*600
Installation Size(W*D*H mm): 264/314/364/414*495*600
268/318/368/418*495*600

Functional Selling Points

1. Precision machining and assembly of space aluminum enclosure frame, modular combination partition classification and storage design 2. The surface treatment of the product is Buddha carbon technology, with antibacterial function on the surface and anti slip standard on the bottom pad, absolutely anti slip, waterproof and more durable; 3. The product has a strong, exquisite, simple and beautiful appearance.

3 Layer Basket
LB030/035/040/045M6

Product Specifications

Main material: Aluminum alloy+Buddha carbon process (metal plate)
Matched base cabinet W=300/350/400/450mm
Configuration: Standard anti slip pad+flexible partition set+center pull
Product Size(W*D*H mm): 264/314/364/414*478*600
Installation Size(W*D*H mm): 264/314/364/414*495*600
268/318/368/418*495*600

Functional Selling Points

1. Space aluminum frame integrated molding, modular combination partition classification and storage design; 2. Independent three-layer pull-out design, clear and concise retrieval of items; 3. The surface treatment of the product is Buddha carbon technology, with antibacterial function on the surface and anti slip standard on the bottom pad, absolutely anti slip, waterproof and more durable; 4. The product has a strong, exquisite, simple and beautiful appearance.

Door linked Basket
LK045/060M6-1

Product Specifications

Main material: Carbon steel powder coating+aluminum alloy Buddha carbon process (metal plate)
Matched door base cabinet W=450/600mm
(shelf recess 175mm at least)
Configuration: Outer double-layer basket body+standard anti slip pad
Product Size(W*D*H mm): 382/555*162*530
Installation Size(W*D*H mm): 414/564*170*590
418/568*170*590

Functional Selling Points

1. Freely draw metal plate powder coating three-layer storage design, multi category classification storage;
2. Gently flip open the door and tilt it naturally, which can reduce the opening force by 30% and reduce the use of opening drawer doors significantly reduce the use of labor;
3. The position of the support shaft can be adjusted and installed flexibly;
4. Open the door and pull out the lower and middle layers together, with limit separation;
5. Integrate storage space to create large capacity storage.

Corner Basket
LZ900LM6 (left) / L Z900RM6 (right)

Product Specifications

Main material: Carbon steel powder coating+aluminum alloy Buddha carbon process (metal plate)
Matched corner cabinet W=900/1000mm (Door W=450/500mm)
Configuration: Double layered inner and outer basket body+anti slip pad
Product Size(W*D*H mm): (860-960)*530*520
Installation Size(W*D*H mm): (864-964)*535*540
(868-968)*535*540

Functional Selling Points

1. M6 Monster Perfectly Solves Corner Cabinet Storage Space, Reasonably Uses Space, Inside and Outside Double layered basket frame design:
2. Product basket body carbon steel powder coating+basket Buddha carbon technology, standard anti slip pad at the bottom of the basket Absolute anti slip, waterproof and more durable;
3. Imported locomotive heavy-duty guide rails, with a track load capacity of up to 35kg.

Plate Basket
LW040/045M6(Plate Basket)

Product Specifications

Main material: Carbon steel powder coating+aluminum alloy Buddha carbon process (metal plate)
Matched base cabinet W=400/450mm
Configuration: 3 layer basket body+module combination separator
Product Size(W*D*H mm): upper: 364/414*457*101/
middle: 364/414*457*102
bottom: 364/414*457*149
Installation Size(W*D*H mm): 364/414/*470*580
368/418*470*580

Functional Selling Points

1. Space aluminum frame integrated molding, modular combination partition classification and storage design
2. Independent double-layer pull-out design, with a clear and concise concept of extraction and retrieval;
3. The surface treatment of the product is Buddha carbon technology, and the surface of the product has bacterial function. The bottom is equipped with anti slip standard pad, absolutely anti slip, waterproof and more durable;
4. The product has a strong, exquisite, simple and beautiful appearance.

Functional Basket
LA040/045M6

Product Specifications

Main material: Carbon steel powder coating+aluminum alloy Buddha carbon process (metal plate)
Matched base cabinet W=400/450mm
Configuration: double layer basket body+module combination separator
Product Size(W*D*H mm): upper: 364/414*457*193
bottom: 364/414*457*149
Installation Size(W*D*H mm): 364/414/*470*580
368/418*470*580

Functional Selling Points

1. Space aluminum frame integrated molding, modular combination partition classification and storage design
2. Independent double-layer pull-out design, with a clear and concise concept of extraction and retrieval;
3. The surface treatment of the product is Buddha carbon technology, and the surface of the product has bacterial function. The bottom is equipped with anti slip standard pad, absolutely anti slip, waterproof and more durable;
4. The product has a strong, exquisite, simple and beautiful appearance.

M6 Tall Cabinet Series

LK045/060HM6

Product Specifications

Main material: Low carbon steel/powder coating+space aluminum (metal plate)
Matched Tall cabinet W=450/600mm
Configuration: Internal and external six layer basket body+anti slip pad
Product Size(W*D*H mm): 405/555*500*1780
Installation Size(W*D*H mm): 414/564*≥510* (1850-2020)
418/568*≥510* (1850-2020)

Functional Selling Points

1. Basket body carbon steel+space aluminum double-layer basket, inner and outer basket body linked pulling, divided into 6 layers inside and outside
2. Storage and storage partition design, with an inner single-layer load-bearing capacity of 5kg and an outer single-layer load-bearing capacity of 3KG
3. Installation structure inside the outer cabinet, no load on the door panel, and installation of the bottom track of the inner basket
4. Installation is not divided into left and right, with a domestic heavy-duty rail bearing capacity of 65kg.

LK045/060MM6

Product Specifications

Main material: Low carbon steel/powder coating+space aluminum (metal plate)
Matched middle tall cabinet W=450/600mm
Configuration: Internal and external 4 layer basket body+anti slip pad
Product Size(W*D*H mm): 405/555*500*1780
Installation Size(W*D*H mm): 414/564*≥510*(1350-1650)
418/568*≥510*(1350-1650)

Functional Selling Points

1. Basket body carbon steel+space aluminum double-layer basket, inner and outer basket body linked pulling, divided into 4 layers inside and outside
2. Storage and storage partition design, with an inner single-layer load-bearing capacity of 5kg and an outer single-layer load-bearing capacity of 3KG
3. Installation structure inside the outer cabinet, no load on the door panel, and installation of the bottom track of the inner basket
4. Installation is not divided into left and right, with a domestic heavy-duty rail bearing capacity of 65kg.

LG030HM6

Product Specifications

Main material: Low carbon steel/powder coating+space aluminum (metal plate)
Matched Tall cabinet W=300mm
Configuration: 6 layer basket+anti slip pad
Product Size(W*D*H mm): 240*480*(1780-2080)
Installation Size(W*D*H mm): 264/268*≥490*(1780-2080)

Functional Selling Points

1. Cleverly designed structure, pulling out the door panel as a whole; The height of the basket can be freely adjusted, which is reasonable Adjustable space allocation, 6-story basket space aluminum integrated molding design, single-layer load-bearing capacity of 6kg
2. Product basket body carbon steel powder coating+basket Buddha carbon technology, standard anti slip pad at the bottom of the basket Absolute anti slip, waterproof and more durable;
3. Imported locomotive heavy-duty guide rails, with a track load capacity of up to 65kg.

LX060HM6

Product Specifications

Main material: Carbon steel powder coating+aluminum alloy
Buddha carbon process+solid wood (metal plate)
Matched Tall cabinet W=600mm
Configuration: 6 layer basket+Standard solid wood partition
Product Size(W*D*H mm): 489*372* (1650-1900)
Installation Size(W*D*H mm): 564/568*≥380/568* (1650-1900)

Functional Selling Points

1. Cleverly designed structure, rotating main frame for easy access; The height of the basket can be freely adjusted, which is reasonable Allocate adjustable space, 6-story basket space aluminum integrated molding design, single-layer load-bearing capacity of 5kg;
2. Product basket body carbon steel powder coating+basket Buddha carbon technology, equipped with wine glasses and bottle partitions;
3. Equipped with heavy-duty guide rails, the track can support a weight of up to 55kg.

M6 Series Kickboard Storage

LJ060/080/090TM6-1

Product Specifications

Main material: Low carbon steel/powder coating (metal plate)
Matched base cabinet W=800/900mm kickboard H=105mm,
code PWND0001B/PWND0002B/PWND0005B/PWND0006B
Configuration: Standard anti slip pad with textured pattern
(including kickboard and adjustable foot)
Product Size(W*D*H mm): 597*485*100/797*485*100/897*485*100
Installation Size(W*D*H mm): 5564/764/864*495*2 (105-115)
568/768/868*495*2 (105-115)

Functional Selling Points

1. The first domestic foot line space storage hardware, reasonable utilization of foot line space, flexible storage season low frequency of use and non use, inventory items;
2. The product basket is made of carbon steel plate with bending and powder coating technology, and the bottom is equipped with anti slip pads for absolute protection smooth, waterproof and more durable;
3. Rebound guide rail, with a track load capacity of up to 30kg.

M6 Series Wall Cabinet Basket

LK060/080/090QA2

Product Specifications

Main material: Low carbon steel, sprayed, dark gray
Matched Wall cabinet W=600/800/900mm
Configuration: double layer
Product Size(W*D*H mm): 564/764/864*260*547
Installation Size(W*D*H mm): 564/764/864*300*2650
568/768/868*300*2650

Functional Selling Points

1. Sealed storage, eliminating the annoyance of kitchen oil stains;
2. Space gray aluminum alloy metal products, quality assurance;
3. It can be opened and closed 30000 times, with a maximum load capacity of 10KG, and the structure is stable without any shaking sensation.

LN060/080/090D4-1

Product Specifications

Main material: Aluminum alloy/Q235, spray coating, ABS
Matched cabinet W=600/800/900mm
Product Size(W*D*H mm): 600/800/900*310*165
Installation Size(W*D*H mm): 600/800/900*310*420

Functional Selling Points

1. When in use, it can be pulled down, and when not in use, it can be easily folded without affecting the space above the countertop;
2. Installed at the bottom of the hanging cabinet, it is convenient to place bowls, plates, food, etc. at zero hours for easy access;
3. Double layered storage with larger capacity

LN060/090DF6

Product Specifications

Main material: Aluminum/Oxidation+ABS
Matched wall cabinet bottom space
Product Size(W*D*H mm): 590/890*210*448mm
Installation Size(W*D*H mm): 590/890*210*90(close)
590/890*210*448(open)

Functional Selling Points

1. When in use, it can be pulled down, and when not in use, it can be easily folded without affecting the space above the countertop;
2. Installed at the bottom of the hanging cabinet, it is convenient to place bowls, plates, food, etc. at zero hours for easy access;
3. Double layered storage with larger capacity

LA060B2

Product Specifications

Main material: Q235/spray coating, PP
Matched base cabinet W=600mm
Product Size(W*D*H mm): 564*465*240
Installation Size(W*D*H mm): 564/568*475*260

Functional Selling Points

1. Breathable basket body, water-resistant bottom plate configuration, hygienic and long-lasting storage of fruits and vegetables;
2. Activity separation configuration, diverse space division and storage;
3. Imported Bailong guide rail, can be used normally for ten years

LS040B1

Product Specifications

Main material: Q235/spray coating, ABS
Matched sink cabinet W=900-1200mm, Door W=450-600mm
Product Size(W*D*H mm): 502*123*560
Installation Size(W*D*H mm): 414-568*215*560

Functional Selling Points

1. Small size, shallow depth, and reasonable utilization of the remaining space in the sink cabinet;
2. Load bearing support seat inside the cabinet, with no load on the door panel, effectively preventing deformation of the door panel;
3. The upper height can be adjusted, flexibly adapting to various sink cabinet spaces

LS045D5

Product Specifications

Main material: Q235/spray coating, ABS
Matched sink cabinet W=900-1200mm
Product Size(W*D*H mm): 368*71*600
Installation Size(W*D*H mm): 414-568*100*600

Functional Selling Points

1. Small size, shallow depth, and reasonable utilization of the remaining space in the sink cabinet;
2. Small storage tools for doors, with a load-bearing capacity of up to 10KG;
3. Flexible hook movement, suitable for various sink cabinet spaces.

LC045A1

Product Specifications

Main material: Carbon steel/powder coating, ABS/gray
Matched cabinet W=450mm
Configuration: double layer
Product Size(W*D*H mm): 423/573*230*340
Installation Size(W*D*H mm): 414/418*250*400

Functional Selling Points

1. Material: Carbon steel double-layer basket, outer double-layer storage, storage partition design;
2. Installation structure inside the cabinet, with no load-bearing door panels and load-bearing side panels, and the door panels are not easily deformed;
3. Classified storage for more convenient access:
The product basket height is adjustable for easy placement of commonly used items Items are classified and placed

LK060A-2

Product Specifications

Main material: Low carbon steel/spray coating+PS
Matched base cabinet W=600mm
Configuration: Inside 3 layer, door 2 layer
Product Size(W*D*H mm): 546X453X519
Installation Size(W*D*H mm): 564*475*550
568*475*550

Functional Selling Points

1. Board style, high-end and atmospheric, standard anti slip pad, anti slip, silent, easy to clean;
2. PS bottom plate single layer can bear 5KG;
3. Installation structure inside the cabinet, with no load-bearing door panels;
4. The inner and outer three-layer basket provides more ample storage space.

LS020RM6/LS020LM6

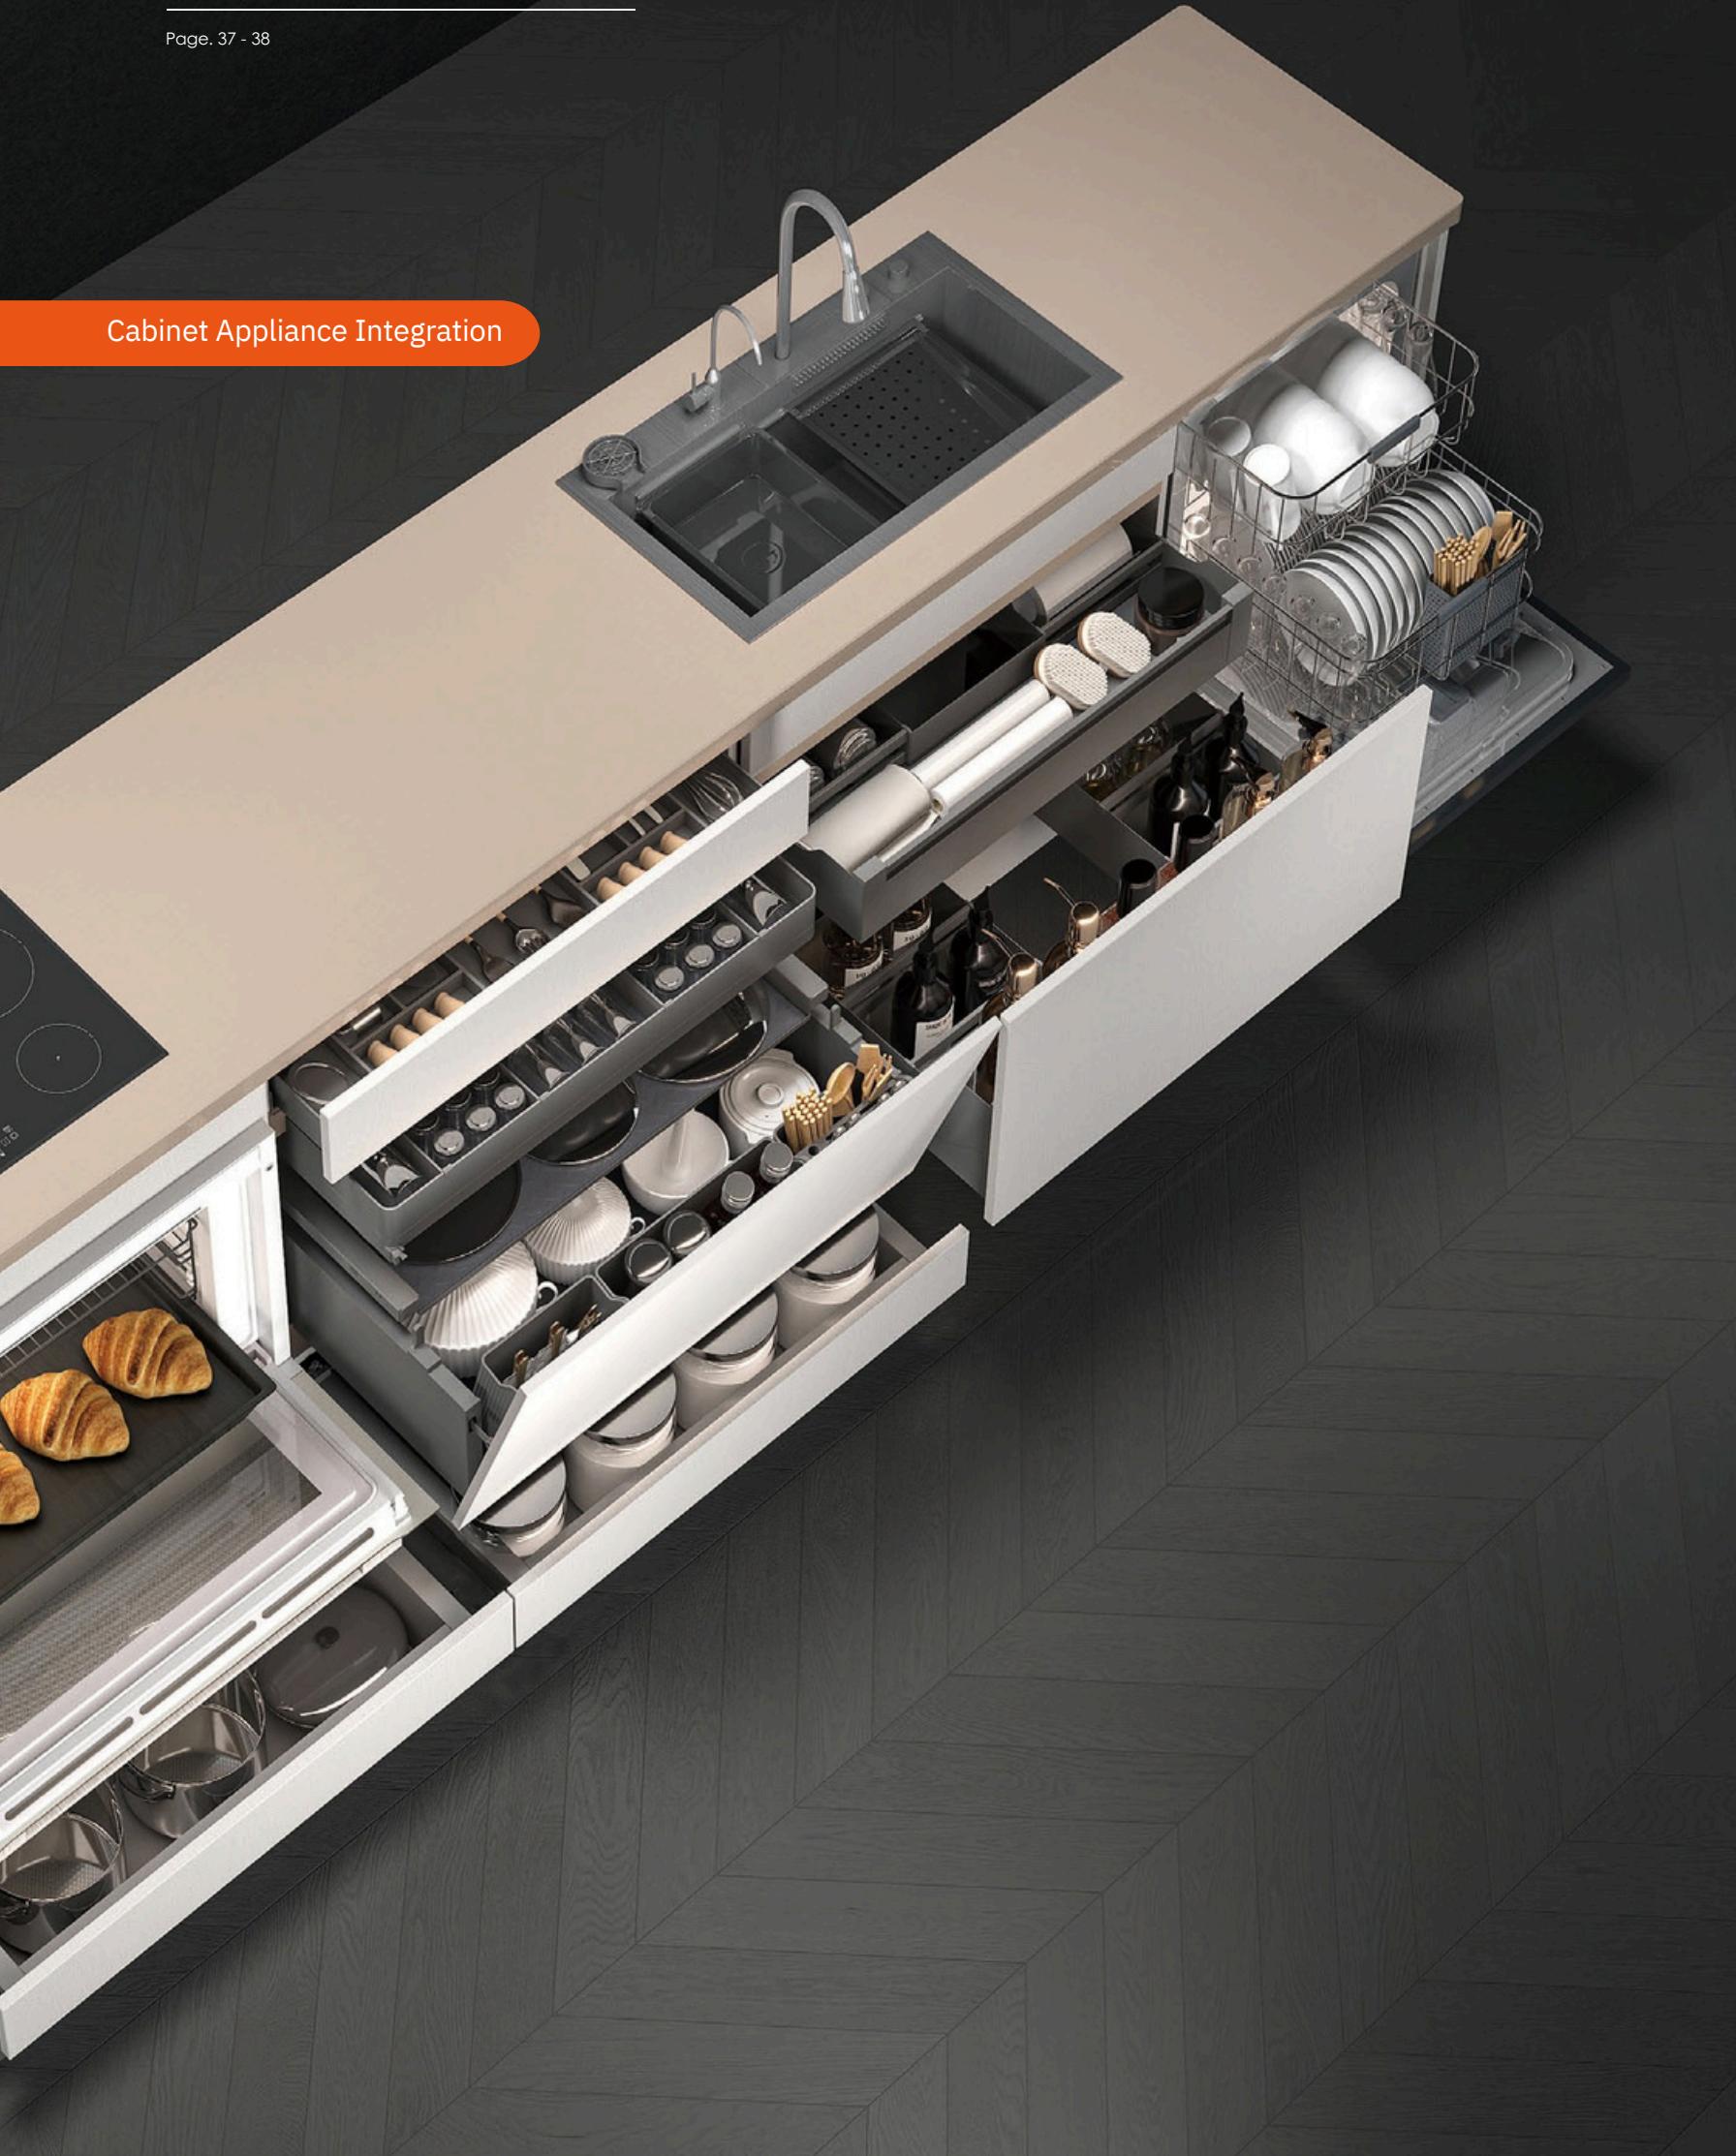

Product Specifications

Main material: Q235/Aluminum alloy spray coating, ABS
Matched sink cabinet W=900-1200mm
Configuration: 2 layer
Product Size(W*D*H mm): 182*466*424
Installation Size(W*D*H mm): 195*485*435

Functional Selling Points

1. Small size, narrow space, make reasonable use of the remaining space in the sink cabinet;
2. Install load-bearing support seats inside the cabinet, with no load on the door panel, effectively avoiding deformation of the door panel;
3. Double layered basket body, side pull-out, flexible adaptation to various sink cabinet spaces.

Cabinet Appliance Integration

M6 Series Drawer Storage Basket
LQ060/080/090M6

Product Specifications

Main material: Carbon steel+aluminum alloy/ABS/PP
Matched drawer cabinet W=600/800/900mm
Configuration: 3 layer(Upper metal partition extraction+middle and lower layer integrated metal extraction)
Product Size(W*D*H mm): 564/764/864*493*285 (middle & bottom)
564/764/864*367*106 (upper)
Installation Size(W*D*H mm): 564/568*475*260

Functional Selling Points

1. Freely draw metal plate powder coating three-layer storage design, multi category classification storage;
2. Gently flip open the door and tilt it naturally, which can reduce the opening force by 30% and reduce the use of opening Drawer doors significantly reduce the use of labor;
3. Open the door and pull out the lower and middle layers together, with limit separation;
4. Integrate storage space to create large capacity storage

Base cabinet Basket
LT060/080/090TM6

Product Specifications

Main material: Low carbon steel/powder coating+ABS (metal plate)
Matched standard cabinet W=600/800/900mm
Configuration: Standard anti slip pad with textured pattern (including kicker and adjustable foot)
Product Size(W*D*H mm): 597/797/897*477*149
Installation Size(W*D*H mm): 564/764/864*480*165
568/768/868*470*165

Functional Selling Points

1. The bottom of the basket is equipped with diamond shaped anti slip pads, which are absolutely anti slip, waterproof, and more durable;
2. Can be paired with cooking centers, meal preparation unit cabinets, storage unit cabinets, foot space, etc.
- Storage space for cooking tools and large items in the cooking center;
3. Basket body cold rolled plate outer frame, surface powder coating process

Tools Storage Basket
LP060/080/090M6

Product Specifications

Main material: Aluminum alloy+Buddha carbon process (metal plate)
Matched cabinet W=600/800/900mm
Configuration: cutlery divider
Product Size(W*D*H mm): 564/764/864*455*85
Installation Size(W*D*H mm): 564/764/864*470*94
568/768/868*470*94

Functional Selling Points

1. Aluminum alloy plate integrated molding, surface Buddha carbon process;
2. The partition width can be adjusted according to demand to meet the storage needs of various sizes;
3. Organize tableware and tools in an orderly manner;
4. Can be paired with meal preparation unit cabinets, storage unit cabinets, and upper level space.

Plate Basket
LQW060/080/090M6

Product Specifications

Main material: Aluminum alloy+Buddha carbon process (metal plate)
Matched cabinet W=600/800/900mm
Configuration: 2 layer (upper disinfection and sterilization smoke+lower bowl basket)
Product Size(W*D*H mm): upper: 564/764/864*444*107.5
bottom: 564/764/864*470*226
Installation Size(W*D*H mm): 564/764/864*475*418
568/768/868*475*418

Functional Selling Points

1. Feel free to draw bowls, baskets, aluminum alloy plates+powder coating double-layer storage design, multi category classification collection; 2. Create an integrated storage unit cabinet with sterilization, low-temperature air drying, and large storage space; 3. The upper layer has built-in hot air drying and disinfection and sterilization functions, and the lower layer has combined module storage

U shape Drawer
LS090M6

Product Specifications

Main material: Low carbon steel/powder coating+ABS (metal plate)
Matched cabinet W=900mm
Configuration: 2 layer (upper built-in low draw+lower high draw)
Product Size(W*D*H mm): upper:868*421*120
bottom : 868*469*190
Installation Size(W*D*H mm): 864/868*485*418

Functional Selling Points

1. Metal plate design, perfectly avoiding the problem of U-shaped drainage and disorderly sink cabinets
2. Creating an integrated storage and washing unit cabinet, with a newly designed U-shaped drawer and double-layer storage, large Capacity design.

Middle-high Cabinet Functional Basket

Tall cabinet Pull-down Basket

LK060HD9

Product Specifications

Main material: Low carbon steel/Q235/ABS/spray coating
Matched Tall cabinet W=600 (upper space)
Configuration: 2 layer
Product Size(W*D*H mm): upper: 564*485*497
Installation Size(W*D*H mm): 564/568*≥490*≥650

Functional Selling Points

1. Dual space, two-level pull-down, storage for Transformers;
2. Protective net configuration, safe and durable;
3. Pull down 0.6 meters, and items at high altitudes can be easily picked up.

Tall cabinet Pull-down Basket

LK060H-2A

Product Specifications

Main material: Low carbon steel, spray coating, PP, dark gray
Matched Tall cabinet W=600 (upper space)
Configuration: 2 layer
Product Size(W*D*H mm): upper: 564*455*545
Installation Size(W*D*H mm): 564/568*≥490*≥650

Functional Selling Points

1. The bottom of the basket is equipped with diamond shaped anti slip pads, which are absolutely anti slip, waterproof, and more durable;
2. Suitable for the upper space of electrical cabinets, solving the storage problem in the upper space of electrical cabinets;
3. Pull out the linkage. The door panel does not deform under heavy load and has a large capacity.

Steam baking tray storage rack

WJ6001

Product Specifications

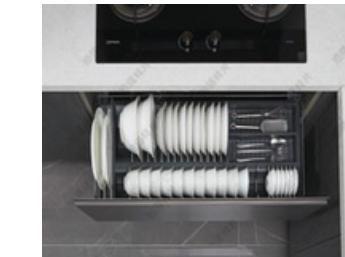

Main material: Q235 carbon steel/powder coating
Matched Tall cabinet W=600 (upper space)
Configuration: Steam baking tray storage rack * 2
Product Size(W*D*H mm): upper: 100*400*132
Installation Size(W*D*H mm): 564/568*≥480*≥200

Functional Selling Points

1. Material: carbon steel plate type, surface powder coating process;
2. Flexible installation according to cabinet requirements;
3. Reasonably utilize the space above the electrical cabinet to store items such as steaming pans

Nano Fashion Style

Steam baking tray storage rack

LW060/070/080/090C1-1

Product Specifications

Main material: ABS, dark gray, spray painted, low carbon steel/nano dry ferr
Matched Drawer cabinet W=600/700/800/900mm
Product Size(W*D*H mm): 564/664/764/864*468*174
Installation Size(W*D*H mm): 564/664/764/864*≥475*≥190
568/668/768/968*≥475*≥190

Functional Selling Points

1. Integrated basket design, beautiful and atmospheric;
2. Bowl and dish line plug-in structure, flexible and convenient;
3. Simple structure and high cost-effectiveness;
4. Nano dry transfer on the surface of the wire plug.

Net basket

LT060/070/080/090C1-1

Product Specifications

Main material: ABS, dark gray, spray painted, low carbon steel/nano dry ferr
Matched Base cabinet W=300/350/400/450mm
Product Size(W*D*H mm): 264/314/364/414*467*527
Installation Size(W*D*H mm): 264/314/364/414*≥475*≥555
268/318/368/418*≥475*≥555

Functional Selling Points

1. Integrated basket design, beautiful and atmospheric;
2. The integrated storage and bottom design structure of the cookware is flexible and convenient;
3. Simple structure and high cost-effectiveness;
4. Nano dry transfer on the surface of the wire plug.

Functional basket

LD030/035/040/045C1-1

Product Specifications

Main material: ABS, dark gray, spray painted, low carbon steel/nano dry ferr
Matched Base cabinet W=300/350/400/450mm
Product Size(W*D*H mm): 264/314/364/414*467*527
Installation Size(W*D*H mm): 264/314/364/414*≥475*≥555
268/318/368/418*≥475*≥555

Functional Selling Points

1. Integrated basket design, beautiful and atmospheric;
2. Seasoning grid line plug-in structure, flexible and convenient, seasoning basket;
3. Simple structure and high cost-effectiveness;
4. Nano dry transfer on the surface of the wire plug.

Distinguished Series

Plate basket
LW060/070/080/090D1-1

Product Specifications

Main material: Q235/spray coating, ABS (metal plate)
Matched Drawer cabinet W=600/700/800/900mm
Configuration: Sterilization lamp+driver power supply
Product Size(W*D*H mm): 564/664/764/864*465*205
Installation Size(W*D*H mm): 564/664/764/864*475*235
568/668/768/868*475*235

Functional Selling Points

1. Functional zoning, complete storage and easy cleaning, elegant grade;
2. Can withstand neutral salt spray for 96 hours, with strong rust prevention performance;
3. UV cleaning function when closed, and ambient lighting when turned on.

Net basket
LT060/070/080/090D1-1

Product Specifications

Main material: Q235/spray coating, ABS (metal plate)
Matched Base cabinet W=300/350/400/450mm
Configuration: Sterilization lamp+driver power supply
Product Size(W*D*H mm): 564/664/764/864*465*126
Installation Size(W*D*H mm): 564/664/764/864*475*190
568/668/768/868*475*190

Functional Selling Points

1. Place cookware with large storage capacity, often installed in the lower space of the cabinet;
2. Can withstand neutral salt spray for 96 hours, with strong rust prevention performance;
3. UV cleaning function when closed, and ambient lighting when turned on.

Functional basket
LD030/35/040/450D1-1

Functional Selling Points

1. Nano dry plating surface treatment can pass the 96H neutral salt spray test, with strong rust prevention performance;
2. Exclusive placement of pots and other utensils, with large storage capacity and strong storage ability;
3. Standard water tray, patented side drain for easy cleaning.

Hanging Set

Rice Storage Box / Waste Bin

Hanging set

GJ010

Product Specifications

Main material: Aluminum alloy/
low carbon steel/spray coating
Product Length: 0.9M

Functional Selling Points

- Integration of sockets, lighting, and modular pendants with multiple functions;
- High definition touch screen, one click operation;
- All aluminum products, high-end and atmospheric

Hanging set

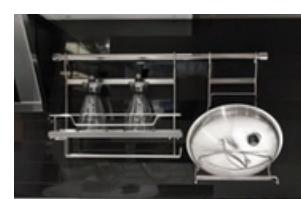

GJO-TC

Product Specifications

Main material: Stainless steel/electrolysis
Product Length: 0.6M

Functional Selling Points

- Short size, flexible matching;
- Stainless steel material, strong rust resistance;
- Matched with the operation on both sides of the sink, it has strong storage capacity.

Hanging set

GJP-TC

Product Specifications

Main material: Stainless steel/electrolysis
Product Length: 0.6M

Functional Selling Points

- Board style is easy to clean and fully functional;
- The pendant is made of cold plate stamping and integrated with black walnut Wood colored decorative strips are more high-end and atmospheric;
- A kitchen that can be paired with multiple design styles

Hanging set

GJF9-TC

564/568*≥485*≥580

Waste Bin

WT011

Product Specifications

Main material: Low carbon steel+PP
Matched sink cabinet W=900-1200mm*H720mm
Product Size(W*D*H mm): 247*452.6*360

Functional Selling Points

- 900-1200 cabinets are universal in width and can be used for sorting and storing garbage.

They are installed inside the cabinet and can be pulled to store garbage.

Drawer Accessories

A3 Series

Cutlery Divider
CT060/090WPF

Product Specifications

Matched drawer cabinet, drawer code: PWWC001GA/PWWN001GA/
PWWC003GA/PWWN003GA Product Size(W*D*H mm): 482*782*472*50

Functional Selling Points

1. The functional modules can be freely combined and installed, and the cabinet can be flexibly controlled and stored;
2. Aluminum alloy spraying is elegant and beautiful;
3. The classification and grid are clear at a glance.

Drawer Accessory
CT060/090WFF

Product Specifications

Main material: Aluminum alloy+plastic
Matched drawer cabinet, drawer code: PWWC001GC/PWWC003GC/PWWC003GD Product Size(W*D*H mm): 482*782*474*98

Functional Selling Points

1. The bottom of the basket is equipped with diamond shaped anti slip pads, which are absolutely anti slip, waterproof, and more durable;
2. Suitable for the upper space of electrical cabinets, solving the storage problem in the upper space of electrical cabinets;
3. Pull out the linkage. The door panel does not deform under heavy load and has a large capacity.

Plate basket

Product Specifications

Main material: Low breaking steel/spray coating, PP
Matched drawer cabinet W=600/700/800/900mm
Product Size (W*D*H mm): 564/664/764/864*460*250
Installation size (W*D*H mm):
564/664/764/864*485*≥270
568/668/768/968*485*≥270

Functional Selling Points

1. The surface of the metal components of the basket has antibacterial function, with an antibacterial rate of up to 99% and 99%.
2. The spacing between bowl racks and dish racks can be adjusted according to the size of the dishes.
3. Equipped with professional anti-slip pads, easy to clean, and can store items without displacement.
4. The component comes with an independent drain tray, which is easy to clean. The chassis can be placed in the dishwasher for cleaning, and the dishes can also be air dried inside the cabinet.
5. Easy to clean: All components can be easily removed, disassembled, and cleaned from the bowl rack, and plastic parts can be placed in the washing machine for cleaning.
6. Durable: It is not easy to rust. The metal frame has passed 96 hours of salt spray testing, and the PP material is not rusty and durable.

Net Basket LT060/070/080/090E6

Product Specifications

Main material: Low breaking steel/spray coating, PP
Matched drawer cabinet W=600/700/800/900mm
Product Size (W*D*H mm): 564/664/764/864*460*250
Installation size (W*D*H mm):
564/664/764/864*485*270
568/668/768/968*485*270

Functional Selling Points

1. KESSEBOHMER brand products, modular combination of production lines, high-end and exquisite Caseboma craftsmanship
2. Functional modules can be freely combined and replaced, and can be stored both on the table and in the cabinet, making it practical and convenient
3. The perfect combination of plastic panel and line styles, beautiful and atmospheric, while also facilitating cleaning
4. Originating from KESSEBOHMER Precision, product performance guarantee

Functional Basket LD030/040E6

Product Specifications

Main material: Low breaking steel/spray coating, PP
Matched base cabinet W=300/400mm
Product Size (W*D*H mm): 254/354*481*520
Installation size (W*D*H mm): 264/364*485*579
268/368*485*579

Functional Selling Points

1. KESSEBOHMER brand products, modular combination of production lines, high-end and exquisite Caseboma craftsmanship
2. Functional modules can be freely combined and replaced, and can be stored both on the table and in the cabinet, making it practical and convenient
3. The perfect combination of plastic panel and line styles, beautiful and atmospheric, while also facilitating cleaning
4. Originating from KESSEBOHMER Precision, product performance guarantee

Door-linked Basket LK040E6

Product Specifications

Main material: Low breaking steel/spray coating, PP
Matched cabinet ≥400mm (base cabinet / tall cabinet)
Configuration: Double layer Product Size (W*D*H mm): 330*130*550 Installation size (W*D*H mm): 364*170*562
368*170*562

Functional Selling Points

1. Designed by renowned designers, the style is fashionable
2. Double layered basket with adjustable height
3. The cabinet layers are retracted internally, and the vertical space is reasonably divided, making the items clear at a glance;
4. Suggest designing for space behind doors such as sink cabinets and electrical cabinets. It can be stacked and used on cabinet doors such as medium cabinets and medium high cabinets, and can also be installed on the inner panel of the cabinet for use.
5. The metal surface is coated with antibacterial coating, with an antibacterial rate of over 99%.
6. Equipped with professional anti slip pads, easy to clean, and can store items without displacement.
7. Durable and long-lasting: not easy to rust, metal frame has passed 96 hours of salt spray test, PP material does not rust

Narrow Basket LC015/020E6

Product Specifications

Main material: Low breaking steel/spray coating
Matched drawer cabinet W=150/200mm
Configuration: KESSEBOHMER Slider
Product Size (W*D*H mm): 100*460*454/150*460*454
Installation size (W*D*H mm):
≥112*490*540
≥162*490*540

Seasoning basket LD060E6

Product Specifications

Main material: Low breaking steel/spray coating, PP
Matched base cabinet W=600mm
Configuration: KESSEBOHMER Slider Product Size (W*D*H mm): (340+200)*460*454 Installation size (W*D*H mm): 564*490*579 568*490*579

Rotating storage basket LK060E6

Product Specifications

Main material: Low breaking steel/spray coating, PP
Matched cabinet W=600mm(base cabinet/tall cabinet)
Configuration: Single layer Product Size (W*D*H mm): 480*480*80 Installation size (W*D*H mm): 564*2490*135
568*2490*135

Functional Selling Points

1. Designed by renowned designers, the style is fashionable
2. The metal surface is coated with antibacterial coating, with an antibacterial rate of over 99%.
3. Equipped with professional anti slip pads and movable partition boards, easy to clean and non shifting storage.
4. Modular combination, upper level components can be easily taken and placed on the desktop/swapped positions, adapting to user habits.
5. Each component is easy to clean.
6. The lower level integrated frame is designed for greater flexibility, making it easy to retrieve items on both sides. It can also place oil drums, small appliances, and other items.
7. Durable: It is not easy to rust. The metal frame has passed 96 hours of salt spray testing, and the PP material is not rusty and durable.

Narrow Basket LC015E1

Product Specifications

Main material: Low breaking steel/spray coating, PP/White
Matched base cabinet W=150mm
Product Size (W*D*H mm): 108*481*579
Installation size (W*D*H mm):
(114-200)*495*585

Functional Selling Points

1. Adapted to 150 wide and ultra narrow floor cabinets;
2. German spraying process, 96H salt spray test;
3. Exclusive customization and serialization of products by Europa;
4. Equipped with standard KESSEBOHMER guide rails and SOFTSTOP damping, the pulling process is smoother.

Drawer divider basket CT060SFF

Product Specifications

Main material: Steel/ABS/Elastic Band
Matched drawer cabinet W>472/520*472*130
Configuration: 5-layer elastic band
Product Size (W*D*H mm): 472/520*472*130
Installation size (W*D*H mm): ≥475/520*472*130

Functional Selling Points

1. The width can be freely adjusted, with a range of 472mm/520mm.
2. Widely applicable and Matched various scenarios
3. Reasonably organize space and improve visual presentation
4. Safer storage, magic elastic band fully wraps the contents, and opening and closing drawers greatly reduces collisions
5. Magic bands are made of special materials and have characteristics such as oil resistance, easy cleaning, and no mold growth
6. No tools required, disassembly and assembly by hand
7. The product can be used independently without attaching drawers

Wall cabinet pull down basket
LK050/060/070/080/090QE6-1

Product Specifications

Main material: Low breaking steel/spray coating
Matched Pull up door wall cabinet W=500/600/700/800/900mm
Configuration: Single-layer
Product Size (W*D*H mm): 464*267*380, 564*267*380
664*267*380, 764*267*380, 864*267*380
Installation size (W*D*H mm): 464/468*270*470, 564/568*270*470,
664/668*270*470, 764/768*270*470, 864/868*270*470

Functional Selling Points

1. The world's first foldable and stable bar counter with damping and no table legs.
2. Simply unlock with one hand, turn the wall into a table, and any wall can add additional usage space, making it available throughout the house.
3. The desktop can be freely changed to suit all room styles.
4. German quality, specially developed for Chinese households.
5. Safety: Equipped with damping, slow descent, stable and smooth operation, and subjected to rigorous testing.
6. It can bear a weight of 30 kilograms.

Wall cabinet pull down basket
LK050/060/070/080/090QE6-2

Product Specifications

Main material: Low breaking steel/spray coating
Matched Pull up door wall cabinet W=500/600/700/800/900mm
Configuration: Double-layer
Product Size (W*D*H mm): 464*267*565, 564*267*565
664*267*565, 764*267*565, 864*267*565
Installation size (W*D*H mm): 464/468*270*710, 564/568*270*710,
664/668*270*710, 764/768*270*710, 864/868*270*710

Functional Selling Points

1. KESSEBOHMER German craftsmanship quality, stable and safe
2. Pull down lock for convenient retrieval and storage of items
3. The position of the pull-down basket is sufficient for users to easily and clearly see the placed items.
4. When the basket is pulled down, the lever and handle automatically rotate to the bottom of the basket, making the field of view wider
5. The basket divides the hanging cabinet into three layers: upper and lower. In addition to pulling the basket for storage, the bottom plate of the cabinet
- Items can also be placed to fully utilize the cabinet space.
6. Special antibacterial coating provides protection for your and your family's health.

Door linked basket
LK045E9-1/LK060E9-1

Product Specifications

Main material: Carbon steel flat wire/dark gray/powder coating
Matched base cabinet W=400/600mm
Configuration: Double layer basket
Product Size(W*D*H mm): 414/564*175*600
Installation Size(W*D*H mm): 414/418*175*600
564/568*175*600

Functional Selling Points

1. Imported quality from Germany, KESSEBOHMER with double-layer storage and partitioned storage design;
- Installation structure inside 2 cabinets, with no load-bearing door panels and load-bearing side panels, and the door panels are not easily deformed
3. Classified storage for more convenient access: The product basket height is adjustable, making it easy to place commonly used items And classify and place them;
4. Matched 450/600 floor cabinets, with door panel storage and inner shrinkage of over 175mm in the layer board

Rotation basket
LK060H-4

Product Specifications

Main material: Q235/Spray/Dark Grey, ABS
Matched Tall cabinet W=600 the upper space
Configuration: Double layer basket
Product Size(W*D*H mm): 560*475*360
Installation Size(W*D*H mm): 564/568*495*430

Functional Selling Points

1. Imported rotating basket KESSEBOHMER rotating material retrieval, and no dead corners above the Kesbaoma high cabinet;
2. Single layer load-bearing capacity of 20KG, flexible storage, convenient retrieval;

Hanging Set
GJMA-TC

Product Specifications

Main material: Aluminum alloy/oxidation
Matched Wall Hanger
Configuration: Hanging rod+hanging basket
Product Length: 0.9m

Functional Selling Points

1. KESSEBOHMER brand
2. The surface treatment that mimics the texture of natural stone is impact resistant, wear-resistant, anti fouling, and has strong anti rust properties;
3. Both the upper and lower parts of the hanging pole can be used to hang and place shelves, with multiple combination options to choose from
4. A kitchen that can be paired with multiple design styles and is also Matched bathroom spaces

Folding bar counter
WJ010-1

Product Specifications

Main material: Carbon steel/gray/powder coated, wooden board
Matched Corner Cabinet W=900-1200mm
Configuration: Double layer basket
Product Size(W): Cabinet W=900-1000mm, door ≥450-500mm
Cabinet W= 1000-1200mm, door ≥600mm
Installation Size(W*D*H mm): 864/868-964/968*500*600
964/968-1164/1168*500*600

Functional Selling Points

1. The door panel can be fully pulled out by opening it at 85 degrees;
2. Single layer load-bearing capacity can reach 25KG;
3. Quick installation structure, simple installation, easy to adjust tray height

Pull dining table 600/800/900
OP-WJ060/OP-WJ080/OP-WJ090

Product Specifications

Main material: Carbon satire/powder coating/particle board
Matched Base Cabinet W=600/800/900mm
Product Size(W*D*H mm): 564*500*115/764*500*115/864*500*115 Installation Size(W*D*H mm): 564/568*500*115 764/568*500*115 864/568*500*115

Functional Selling Points

1. The world's first foldable and stable bar counter with damping and no table legs. Simply unlock with one hand, turn the wall into a table, and any wall can add extra usable space, available throughout the entire house.
2. The desktop can be freely changed and adapted to all room styles.
3. German quality, specially developed for Chinese families.
4. Safety: Equipped with damping, slow descent, stable and smooth operation, rigorously tested.
5. Load capacity of 30 kilograms.

IMOVE pull down basket

LK060QC-2/LK090QD-1

Product Specifications

Main material: 0235/Spray/Dark Grey, ABS
 Matched wall cabinet W=600/900mm
 Configuration: Single layer basket Product Size(W*D*H mm): 564/864*267*380 Installation Size(W*D*H mm): 564/568*300*>650 864/868*>300*>650

Functional Selling Points

1. KESSEBOHMER imported hanging cabinet basket 600/900
 2. Humanized design, more convenient to use: When the lifting basket is pulled down, the pull rod and handle automatically rotate to Under the basket, the view is wider and access is more convenient;
 3. High space utilization: imove divides the hanging cabinet into two layers, top and bottom, except for the basket for storage Items can also be placed on the bottom plate of the cabinet, making full use of the cabinet space.

Tall Cabinet basket

LK045HE9-1/LK060HE9-1

Product Specifications

Main material: Carbon steel flat wire/dark gray/powder coating
 Matched tall cabinet W=450/600mm
 Configuration: 6 layer basket
 Product Size(W*D*H mm): 414/564*175*1700
 Installation Size(W*D*H mm): 414/418*>175>1700
 564/568*>175>1700

Functional Selling Points

1. Imported quality from Germany's KESSEBOHMER, with double-layer storage and partitioned storage design:
 2. Installation structure inside the cabinet, with no load-bearing door panels and load-bearing side panels that are not easily deformed
 3. Classified storage for easier access: The height of the product basket is adjustable for easy placement
 Commonly used items and classified for placement; Matched 450/600 high cabinets, with door panel storage and inner shrinkage of more than 175mm in the layer board;

Tall Cabinet basket

LK045HE/LK060HE

Product Specifications

Main material: Q235/Spray Coating
 Matched tall cabinet W=600mm
 Configuration: 5 layer basket
 Product Size(W*D*H mm): 410/560*495*1685mm
 Installation Size(W*D*H mm): (414-418)*>500*>1700
 (564-568)*>500*>1700

Functional Selling Points

1. Cleverly designed structure, all weight is borne by the floor cabinet, and the door panels and hinges do not bear weight
 2. Adopting a new type of track and linkage mechanism to ensure noise reduction effect
 3. The height of the basket can be freely adjusted, and the adjustable space can be allocated reasonably
 4. Installation is not divided into left and right, with a track bearing capacity of 100KG

Tall Cabinet basket

LG030HH

Product Specifications

Main material: Q235/Spray Coating
 Matched tall cabinet W=300mm
 Configuration: 6 layer basket
 Product Size(W*D*H mm): 250-495-1900-2300
 Installation Size(W*D*H mm): (264-268)*>500(1900-2300)

Functional Selling Points

1. Cleverly designed structure, with the door panel pulled out
 2. Adopting a new type of track and linkage mechanism to ensure noise reduction effect
 3. The height of the basket can be freely adjusted, and the adjustable space can be allocated reasonably
 4. Installation is not divided into left and right, with a track bearing capacity of 100KG

HIGOLD®

Plate Basket

LW060/070/080/090HG3-3

Product Specifications

Main material: Black crystal tempered glass+aluminum alloy/nano spray coating
Matched base cabinet: W=600/700/800/900mm
Configuration: 18 inch damping slide rail (side/bottom mounted)
Product Size(W*D*H mm): 564/664/764/864*450*180
Installation Size(W*D*H mm): 564/664/764/864*≥460*≥200
568/668/768/868*≥460*≥200

Functional Selling Points

1. Modular combination: flexible storage, efficient use of space, efficient and beautiful appearance
2. Material: Space aluminum+tempered glass collision. Beautiful, elegant, durable, and reliable quality
3. Surface treatment: powder coating process+snowflake bottom plate design. Environmentally friendly and durable, further strengthening rust and corrosion prevention performance
4. New 3D door panel easily adjustable: do as you want, stop whenever you want
5. Easy to disassemble and wash water tray: a thoughtful helper for easy cleaning
6. Angus slide rail: a strong alliance between two major brands to safeguard the peace of life

Seasoning Basket

LD030/035/040/045HG3-3

Product Specifications

Main material: Black crystal tempered glass+aluminum alloy/nano spray coating
Matched base cabinet: W=300/350/400/450mm
Configuration: 18 inch damping slide rail (side/bottom mounted)
Product Size(W*D*H mm): 264/314/364/414*450*470
Installation Size(W*D*H mm): 264/314/364/414*≥485*500
268/318/368/418*≥485*500

Functional Selling Points

1. Modular combination: flexible storage, efficient use of space, efficient and beautiful appearance
2. Material: Space aluminum+tempered glass collision. Beautiful, elegant, durable, and reliable quality
3. Surface treatment: powder coating process+snowflake bottom plate design. Environmentally friendly and durable, further strengthening rust and corrosion prevention performance
4. Angus slide rail: a strong alliance between two major brands to safeguard the peace of life

Not Basket

LT060/070/080/090HG3-3

Product Specifications

Main material: Black crystal tempered glass+aluminum alloy/nano spray coating
Matched base cabinet: W=600/700/800/900mm
Configuration: 18 inch damping slide rail (side/bottom mounted)
Product Size(W*D*H mm): 564/664/764/864*450*180
Installation Size(W*D*H mm): 564/664/764/864*≥460*≥200
568/668/768/868*≥460*≥200

Functional Selling Points

1. Material: Space aluminum+tempered glass collision. Beautiful, elegant, durable, and reliable quality
2. Surface treatment: powder coating process+snowflake bottom plate design. Environmentally friendly and durable, further strengthening rust and corrosion prevention performance
3. The brand new 3D door panel can be easily adjusted: you can stop as you like, just stop if you want!
4. Easy to disassemble and wash water tray: a thoughtful helper for easy cleaning
5. Angus slide rail: a strong alliance between two major brands to safeguard the peace of life

Lazy Susan (Left & Right)

LZ090LV3/LZ090RV3

Product Specifications

Main material: Aluminum alloy+carbon steel/powder coating
Matched corner cabinet W=900mm
Configuration: double layer basket, 1 high support pole and 2 sets of lever arms
Product Size(W*D*H mm): 800*475*(600-750)mm
Installation Size(W*D*H mm): 800*≥475*>(600-750)mm

Functional Selling Points

1. Space utilization: Cleverly solve the problem of 90 "dead corners" where space cannot be used, with a double-layer design and double capacity to fill the void Play to the extreme.
2. Surface treatment: Aluminum material, powder coating treatment to prevent rusting problems
3. Breaking down foreign patent barriers, obtaining domestic structural/design patents, national pride, should strive for self-improvement
4. Three step quick installation design, easy to install, solves the problems of installation trouble and high cost, efficient and convenient
5. Bidirectional damping arm, ice skating style pull-out, excellent experience
6. 50000 cycles of European standard lifespan guarantee, durability guarantee, peace of mind

Tall Cabinet Basket

LK045HG3-1/LK060HG3-1

Product Specifications

Main material: Aluminum alloy+carbon steel/powder coating
Matched Tall cabinet W=450/600 mm
Configuration: 5 layer basket
Product Size(W*D*H mm): W450: 408*500*1620
W600: 558*500*1620
Installation Size(W*D*H mm): W450:408*500*1620
W600: 558*500*1620

Functional Selling Points

- Efficient combination: Multi layer design, super large capacity, no waste of space for optimal performance
- Personalized expression: Using a 105° hinge design, it opens and closes wide for convenient storage needs of large objects
- Dual track design: safe and reliable, bringing quiet and smooth operation, reflecting pulling performance, making every pull It's enjoyment
- Rigid and reliable: High quality aluminum material, capable of withstanding a maximum pressure of 50kg, reliable only with responsibility

Tall Cabinet Basket

LK030HH3-1

Product Specifications

Main material: Aluminum alloy+carbon steel/powder coating
Matched Tall cabinet W=300mm
Configuration: 5 layer basket
Product Size(W*D*H mm): 250*500*(1659-2059)
Installation Size(W*D*H mm): 250*500*(1659-2059)

Functional Selling Points

- Efficient combination: Multi layer design, super large capacity, no waste of space for optimal performance
- Personalized expression: 360° fully open, easy to access and place on both sides, no visual impact, no blind spots
- Dual track design: safe and reliable, bringing quiet and smooth operation, reflecting the pulling effect, making every pull enjoy
- Rigid and reliable: High quality aluminum material, capable of withstanding a maximum pressure of 30kg, reliable only with responsibility

Corner Basket (left & right)

LZ900LHG/LZ900RHG

Product Specifications

Main material: Aluminum alloy+carbon steel/powder coating
Matched corner cabinet W=900mm
Configuration: Double layer basket
Product Size(W*D*H mm): 860*510*535
Installation Size(W*D*H mm): 860*>510*>535

Functional Selling Points

- Higold cleverly expands the possibility of corner storage in the kitchen, which is often overlooked.
- The Higold Xile Little monster is equipped with high-performance damping slides, which can open and close freely, and are quiet and smooth.
- Stable product structure, smooth pushing and pulling, as new as new after long-term use, with no superior quality.
- Guaranteed 50000 cycles of lifespan and durability according to European standards, providing peace of mind and peace of mind

Pull Down Basket

LK060/070/080/090QHG

Product Specifications

Main material: Aluminum alloy+carbon steel/powder coating
Matched wall cabinet W=600/700/800/900mm
Configuration: double layer basket
Product Size(W*D*H mm): 564/664/764/864*280*550
Installation Size(W*D*H mm): 564/664/764/864*>280*>550

Functional Selling Points

- Material: Space aluminum, aesthetically pleasing while incorporating rigid and reliable mass, capable of withstanding a maximum weight of 25kg
- User experience: Combined with a 3-speed power regulator, bidirectional damping, perfect mechanical design, from pull-down to return.
Push to the '0' force state
- Advanced damping: damping time control for 1, 5S golden time, advanced enjoyment
- Whatever you want: Damping feedback allows you to stop at any angle and unlock your exclusive angle

peka
Switzerland

LW060/070/080/090BG1

Product Specifications

Main material: Aluminum+Plastic ABS
Matched base cabinet W=600/700/800/900mm
Configuration: 18 inch side mounted guide rail
Product Size(W*D*H mm): 550*447*134/650*447*134
700*447*134/850*447*134
Installation Size(W*D*H mm): 564*480*300/664*480*300
764*480*300/864*480*300

Functional Selling Points

1. Swiss Platinum is designed specifically for Chinese kitchens, perfectly suited to the Chinese way of life;
2. Modular combination, flexible storage, efficient use of space, beautiful and elegant;
3. Space aluminum+high-strength environmentally friendly plastic combination, rust and corrosion prevention, beautiful and elegant, reliable and durable coexist;
4. The new 3D adjustment technology for door panels ensures a seamless fit between the door panels and the cabinet;
5. Easy to disassemble and clean, easy to clean accessories;
6. Swiss Platinum exclusive slide rail, smooth and noiseless pulling and putting;

LT060/070/080/090BG1

Product Specifications

Main material: Aluminum+Plastic ABS
Matched base cabinet W=600/700/800/900mm
Configuration: 18 inch side mounted guide rail
Product Size(W*D*H mm): 550*447*134/650*447*134
